Konpeki in uniform on duty

Konpeki uses her skin-based holographic projection, to change her eyes to brown, her hair to black, and hide one of her earrings on each ear. [SPINE](#) interface can be seen as a series of pink dots on her back.

Konpeki on stage

Konpeki has long, straight, very dark blue hair that runs down to the middle of her back. Though sometimes when performing she will alter her hair color to suit the mood. Konpeki also uses her skin-based holo projectors to conceal her **SPINE** interface when performing.
