History

Family (or Creators)

Ketsurui Zaibatsu

Pre-RP

Shortly after her creation, Dakura Dakura was sent off to to train to become a SAINT operative. She had very few blips during this time of her life, only the occasional mishap and regular life drama. After completing training she was assigned a desk job, which drove her bonkers as her need for adventure fueled her to peruse bigger and better things. After several months of paper work, waiting and pleading/threatening the higher up she was finally given a new assignment and transferred to a new position on the YSS Sakishima.

Post RP

In [YE 41](#), she was transferred to [Black Sands Test Range](#) to serve as the primary secretary there.

Skills

Communication:

Dakura is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Dakura is fluent in Nepleslian and Yamataian. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc

Dakura received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor.

Technology Operation

Dakura is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information. Dakura is also able to program and Hack a variety of computers because of her SAINT training as well as from her experimentation with computers when she was bored at the office.

Mathematics

Rogue

With Her Saint training Dakrua has learned how to pick locks as well as how to decrypt things. With her specialty being information she is more well versed in decryption than in other more physical rogueish activities.

Entertainment

Dakura is very orally talented, she is capable of doing imitations, singing, as well as other services.

Communications

Companions

Ichi and San

- Roughly 6 inches tall Ichi and San are two independent AI's that help Dakura out with her daily tasks and routines. Physically the two look like small Miniature versions of Dakura with minor differences (Ichi has red hair and blue eyes and San has blue hair and red eyes, both with a twin bun hairstyle.) but internally they are basically computers with a built in anti grav generator to help them float and fly. They are primarily used for work and entertainment related things, seeing as

their small size and relative fragile state makes them almost worthless in a combat situation.
