Her face is long and toned causing her to look slightly older and more serious at times than she is, her lips are wide and thin with a [Light Blue](#) lipstick.

Kryss usually dresses in a white and blue [Business Suit](#) but when not on official business will often dress in white tank top with a white and blue [short cut jacket](#) and cargo pants with black heavy lace-up boots. ## Personality

Kryss is a person who likes to get things done and won't stand for nonsense when on a job and will work to achieve the best outcome in the shortest time but has adapted to certain situations where a less direct approach is more effective. She is a more reserved person than others her age and prefers productive talk rather than an overly long social call but on occasions will be more open to social interaction.

As the daughter of [Galactic Horizon](#) CEO [Riccard Black](#) she aims to eventually take control of the company when her father is unable to run it any longer and pushes herself to work efficiently to prove she is capable of continuing the business. This has led to a less feminine outward appearance as Kryss pushes herself to be the best and can be surprising when compared to her physical appearance.

## History

Kryss Black was born in [YE 20](#) just two minutes after her twin brother Donovan on [Planet Yamatai](#) in her parents small home, she and her brother were cared for by their loving parents who did their best to provide for them during their early years. Her father worked full time while her mother would remain at home and care for Kryss and Donovan before they were old enough to attend public education, at school the twins both performed above average compared to their classmates and while Donovan become popular through his success and social ability Kryss often went to the library to study or work and was soon labelled as a fraud who was getting high results from her brother due to being so disconnected and her less feminine appearance.

Kryss grew up learning how to deal with the criticism that accompanies being anti-social and devoted herself to improving her knowledge and results, Donovan had tried to defend his sister and as a result was losing popularity and self-confidence. Kryss cared about her older brother and didn't want to see him lose the good things he had and so openly admitted to cheating despite her brother's pleas, things returned to the way they had been from then on. After graduating Kryss managed to convince her father to pick up his old project, [Dawn](#) with his old friends, she assisted him on completing the project and spent her second year after graduating working day and night to complete the project.

As they neared completion Kryss suggested starting a company for the group to move into as the next step, she'd heard of [S6](#) through her father on various occasions and persuaded him to discuss their plans with the advanced R&D organisation based on [Planet Osman](#). After the negotiations had been completed and the once pipe-dream had become a reality Kryss and her family moved to 188604 to begin work at

the new company owned by [Riccard Black](#), [Galactic Horizon](#). Having studied some business law and diplomacy through her education Kryss was appointed as Horizon's very capable corporate liaison and would be responsible for all dealings with S6 and other groups.
