## Physical Characteristics

- Height: 5,10
- Mass: 154lbs
- **Measurements:**

**Build and Skin Color:** Lapas has a slightly athletic build with all of his entry port in their normal

locations. He has somewhat fair skin that will tan with some time in the sun.

**Eyes and Facial Features:** He has orange eyes that are normally kept under blue goggles.

**Ears:** His horns are each 1 foot long and curve back slightly. They are also enameled white he added this after he left home two years ago.

**Hair Color and Style:** He has black hair cut short and left unkempt.

**Distinguishing Features:** Other than his desire to keep his eyes covered by goggles and the color of his horn. Lapas doesn't deviate too far from average members of his culture. He blends in perfectly which is all he could ask for.

## Psychological Characteristics

**Personality:** Although he appears to be very energetic and sarcastic, Lapas is a fairly relaxed person in most situations. He tends to enjoy loud entrances in any setting besides stealth missions and even then those don't last very long when he's involved. In some cases like meditation or star ship piloting (often one in the same to him) he shows a disgusting level of focus towards that action. True to his starsign of Dahbi he is willing to try any action regardless of skill level but he'll still favor demolition and piloting.

- **Likes:** Meditation, Flying, Explosions, Fire, Socializing, Drinking, Video Games,
- **Dislikes:** Religious intolerance, open ground, the Astral Commonwealth, being too uptight
- **Goals:** To make more money and to get his own ship

## History

### Family (or Creators)

Stiprus Vejo-Father-Deceased

Silpnas Vejo-Mother-Deceased

Klaida Vejo-Sister-Imprisoned

### Pre-RP

Lapas was raised in the family of a distinguished Frame pilot in a nomadic Eyr Ranr tribe. When he grew into adolescence his sister Klaida became involved in a circle of extremists. Stupidly Lapas joined there he was educated in basic combat training in addition to explosive training but where he really excelled was piloting and more specifically outrunning authorities. One day the Vanguard staged an assault on the headquarters of Lapas' extremist group he reacted by running abandoning his comrades even his sister.

Now two years later he has created his own personal business out of being a discreet pilot who doesn't ask question or a political assassin for customers who want to send a big fiery message. If only he had the reputation to actually get him more lucrative jobs.

## **The Iron Ferret**

Lapas, desperate for money had a plan. He would hide out on a pirate ship and when they went out for a boarding action he'd kill the crew left on board and take the ship. He wasn't expecting a group of Bounty Hunters to be trying to sneak on and steal the ship instead.

After some negotiating Lapas joined up with the team and set about making himself as comfortable as possible. With only one minor incident which was quickly solved by his application explosives the group set about living with him around.

## **Interview**

Kendra wanting to know more about her new crew member decided to interview Lapas to determine his worth. She could not resist his endearingly annoying charms.

## **Skills**

### **Communication**

He can use most standard issue starship communication devices and is literate in both the common language and Nepeslian.

### **Starship Operation**

Since Lapas was born to Eyr Ranr he can pilot most ships from the commonwealth that he comes in contact with along with Nepeslian and older Origin industries craft . additionally he can navigate through several major star systems.

### **Demolitions**

As the groups primary bomb maker he can create improvised explosives and handle any military grade explosives. Alternatively he can disarm the majority of bombs that have been placed and set to explode.

## Repair

In order to survive in his culture he learned how to maintain systems on airships and on Iromakuanhe starships in addition to most older model Nepleslian starships.

## Technology

His heritage gives him excellent operation of Iromakuanhe technology and he can also work most older models of Nepleslian computing and mechanical technology due to his recent time in that part of space.

## Fighting

The training he received in his sister's extremist group has left him fairly inept at close quarters combat but he more than makes up for it with advanced skills in combat with assault rifles, sub machine guns, and pistols. He is more than qualified to be a marksman in the Vanguard if they would actually take him.
