Physical Description

Standing at just a hair over six feet tall, Seraphiel has a body built toned—if not athletic—for his size. With easily visible muscles that leave no doubts about the Elysian's natural born physical prowess. He has a wave of silver-blond hair that hangs in a messy style. With a face kept cleanly shaven due to his inability to grow a beard. A trait that Seraphel does his best to distance himself from, as he considers his boyish features to be flawed. A flaw to hide underneath numerous outfits of black cotton lycra. Each one of them fitted snugly to his form in a way that exaggerates his most masculine feature: his soldier's body.

Personality

"If I can protect you, I will."

General Disposition:

With a personality to match his appearance, Seraphel is every bit the supportive guardian that one would picture when imagining an angel. Although this does not manifest in the usual way. With much of his life leaving him jaded to the world, Seraphiel has become a heavily introverted young man. One who wishes to be supportive of others, all the while lacking the skills to do so. Thus Seraphiel has sought to help by being a shield of others instead. This need to defend others should not be confused with blind loyalty. Seraphiel's resentment against the Elysian Celestial Empire is a perfect example of this.

Strengths:

Reliable and Patient: Rather than offering sporadic, excited rushes that leave things half-finished, Seraphel is meticulous and careful, taking a steady approach and bending with the needs of the situation just enough to accomplish his end goals.

Routine and Thorough: Even when dealing with the mundane, Seraphiel can see the beauty and harmony that he can create; because he knows the impact that it can have on others.

Analytical and Observant: Seraphiel is quite imaginative and pairs this trait with his empathy, observing others' emotional states and seeing things from their perspective.

Weaknesses:

Humble and Shy: Seraphiel's standards for himself are quite high. Often downplays his work entirely, knowing that he could have done some minor aspect of the task better.

Reluctant to Change: Even if he won't acknowledge it, Seraphiel's birth as a Plebeian has deeply ingrained a respect for hierarchy. For him, it is more than a title. It is the way things are meant to be. And no matter how far he tries to run, it will drag after him, like a chain pulling on his body.

Represses His Feelings: Seraphiel is an Elysian plagued by frustration and anxiety from his former life.

Yet, he feels that expressing these thoughts would only serve to hurt others. And so Seraphiel tends to internalize them as possible.

Loner Wolf: Being naturally introverted, Seraphiel has little to no experience with others unless they are giving him orders. Still, this does not mean he does not long for a connection. Hoping deep down, in some secret part of him that one day someone will force their way into his thoughts.

Relationships/Friendships:

Regardless if it's a friendship or a relationship, Seraphiel has trouble with openly expressing emotions. But that shouldn't mean he is an empty bag. Quite the opposite, Seraphiel hides a river of strong feelings underneath it all. Almost so strong as to turn an interaction violent, although only during certain instances in a romantic experience. And only when met with a response that is openly critical of his kindness. Although a little force to blow off steam from the pressures of life isn't unheard of. He will always defer to his partners' happiness, delighting in their pleasure. All that is asked for in return is commitment, love, and, perhaps most of all, appreciation.
