- Height: 1.68m (5.5')
- Mass: 133lb

- Measurements: 35D-21-36

Build and Skin Color: Antonia is light tan in appearance, her build is average. Slim but she works out when she can, causing her muscles to be defined.

Eyes and Facial Features: Her eyes are a piercing emerald green, that have a spark of joy behind them. Her face has a cherubic look to it. Her cheeks and nose are covered in freckles. She always has a lopsided smile on her lips.

Ears: Her Ears are of standard human build, She thinks they might be a little long but they are about average. She has two ring piercings in her left ear.

Hair Color and Style: Her hair is red, which she keeps braided in a long ponytail that reaches just above her waist. The top of her head is covered in a NSMC Type 33 Cap.

Distinguishing Features: She wears a NSMC Type 33 Cap that she was given by an old boyfriend before he left on deployment. It was the last she ever saw of him.

Psychological Characteristics

Personality: Antonia is a laid back person, she always moves with a feeling of non-stressed. Never one to outwardly stress the small things, she looks for best in a situation. Although her attitude is laid back she is very competent, always on top of her assignment, allowing for her the time to look slacked off and carefree. She enjoys working around new people and hopes to create new friends as she goes. Because it is so special to her, she wears her Type 33 cap at every available opportunity.

- **Likes:** Any form of long ranged weapons (Starship, Vehicles, Handheld), Dancing, Beer
- **Dislikes:** Anything slimey, Jello (It is freaking weird), and romance movies
- **Goals:** "To Blast My Way Across The Stars!!!!" quote Antonia Stark

History

Family

Father: John Stark (alive and well) Upper Haven, Roger Wilco City, Nepleslia. Mother: Julia Stark (alive and well) Upper Haven, Roger Wilco City, Nepleslia.

Pre-RP

Antonia was born and raised in the City of Roger Wilco, where she lived a fairly mundane life (for a Nepleslian {gun fights not included}). She kept her nose clean and stayed out of the gangs and other

lawlessness. Of course she committed a few petty crimes in her early teens, but she was never caught. Living in Upper Haven gave her access to some of the better schools. Her family were by no means rich but they were middle class. Her father worked for a big wigs private security force, and her mother worked at a local hospital as a nurse. Her mother's career led her to understand the importance of medical training.

Growing up she always wanted to leave the planet and see the stars. Once she turned 16 the idea of joining the Star Navy. When she was 17 she dated a Marine and they were planning to get hitched when he got back from his last deployment. The day he left he gave her his old field cap. Two weeks later she got a message from a Marine in the same unit saying that her boyfriend was KIA. From that day on she wore that cap unless circumstances prevented her.

She joined the Navy the day she turned 18 and busted her way through boot. She found during boot camp that she was pretty good with any ranged weapon. Not a master but she could qualify with any of the long ranged rifles that they had in boot. During she also took as many Field Medical classes she could take without changing over to medical training.

Joining the Venus

At once she was at odds with the CO of the ship. After being dressed down by Starblaster he had decided him to be a jackass. After boarding the next morning brought an aborted launch, caused by a weapons malfunction, after a bit of witty banter with the Chief Engineer he realized the problem and she headed back to the bridge.

Cultural Exchange Officer

Mission (PM¹)) 21

Joining the Crew of the Eucharis started off exciting, with her offering to kill and pulling a pistol on a crew member of the Eucharis, while in a vehicle with Hanako. It was all a misunderstanding, the officer in question was formal NMX, and Tony was trying to be helpful. It went over as can be expected. Later there was a dinner party, followed by her going to a shooting range.

Mission 22 Tony got used to piloting the Ship, to the scorn of the current ship's operator Natsume. Though things were solved with booze and "lovin"...

Mission (PM²)) 22 Was dragged along to a beach, by Natsume and Akane.

Mission 23

Returning to the Ship sunburned and hung over Tony prepared to embark on the next mission....

Skills

Communications

She is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, ships, ground vehicles, power armor, and shuttles in both combat and non-combat conditions. Antonia fluent in Nepleslian. She can speak and write it correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. She is skilled in field communications and is proficient in all rudimentary forms of communication (hand signals, flashing lights, etc).

Starship Operations

Antonia can pilot most Nepleslian starships. She can navigate ship if she had to, but she is best used at the gunnery station where she can work the ship's weaponry and put her eye for ranged combat into play. She seems that she can pick the right times and angles to fire that get through defense screens.

Fighting

Antonia received intensive hand-to-hand combat training (primarily focused on disabling and/or killing opponents) and has followed up that knowledge with a rigorous training program. Weapons she is trained in include pistols of all types, knives, grenades (and other forms of explosive weaponry) and rifles of all kinds. She excelled with any long ranged rifle that she worked with, leading to her to almost transfer to the marines as a sniper. Antonia is in excellent physical shape and has considerable endurance. She is also able to pilot land-based power armors, but must rely on the suit's A.I. to do anything advanced.

Survival

She knows how to survive in hostile environments. She can build shelters, hunt and forage for food, build a fire, etc. Antonia can camouflage herself and is familiar with guerrilla warfare tactics.

Strategy (Tactics/discipline)

She was trained to understand and give out tactical commands and work with her troop to follow those commands efficiently. She knows the importance of teamwork on the battlefield, has been intensively trained in discipline and morale, and is able to recognize the command structure even while under extreme pressure (combat, etc). Antonia is able to recognize ambush points. She knows basic math in order to calculate distances, etc, and can use a tactical map.

Vehicles (ground vehicles)

Antonia is familiar with how to effectively pilot most ground vehicles. She can make rudimentary repairs to his vehicle. In addition, she has excelled again with the use of tank weaponry, she has an eye for ranged combat. While inside this vehicle, she can perform difficult firing maneuvers under high stress (combat, etc). After working around the tanks in boot she grew the understanding (by watching the mechanics) how to jury rig most Neplesilan tanks so that they can continue to fight.

Medical

Antonia knows how to diagnose and treat conditions, apply first aid and emergency care (CPR, etc), and perform field surgery. She knows how to work in and use hospital equipment. She was taught how to preform triage and help stabilize wounded in the field.
