History

Ayla Sozon was born in YE 15 to rich family of Nepleslian higher-class and under a different name. She was eldest sibling of two younger brothers. Her life was never a pampered one though, as both her parents pushed to her join the NSMC when it was formed. Her father tried to instruct with some military drilling and instruction from his time in the former Star Army of Nepleslia and her mother tried to instill some patriotism in her. She was not happy with the "indoctrination" and rebelled quite often against her parents and the state, even getting into fights some of the more patriotic kids at school. On her 19th birthday, her parents came to her with the documents to sign up for the NSMC, but she was gone, missing on her accord. Her parents didn't care much, but both of brothers were affected deeply by this.

Ayla decided to leave everything behind her, changed her name, dyed her hair, and moved onto to life on the streets. She wanted to get a lawful job but the thought of paying the Nepleslian government sickened her. She committed her first spending three weeks on the streets, robbing a purse off a random passer-by and earning her first 300 DA. She found this profitable and kept robbing random pedestrians when needed and refining her skills of pick pocketing and soon moved up breaking and entering theft and even had several elaborate yet small heists planned out.

Eventually, Ayla's skills as a thief caught was noticed by several organized crime families and began hiring her for steal from each other. She got her first taste of blood during a botched knock-over of a racketeering operation when one of the thugs protecting the place pulled a gun on her. She eventually was invited to take place in a bank heist that went off fairly successfully but left her with most of the cash. She got greedy with all the money tried keep most of the money for herself. The mob enforcer she was working with didn't take too kindly but respected her skill and left his mark on her in the form a chemical burn on her right hand before taking all the money from the heist.

She now spends most of her leading a gang of ragtag criminals on their quest to become criminal kingpins. Or to just make herself one.
