History

Family (or Creators)

Simon Petroc Kragginsky (Grandfather) Ivan Simonov Kragginsky (Father) Alexandra Ivanovna Kragginsky (Mother) Petr, Ivan, Anya, Katy and Tanya (younger siblings)

Pre-RP

Born a [Kuznyetski](#) on planet [Vandenberg](#), Kira was almost never alone. She grew up on the outskirts of Craggston an industrial city. Growing up in kuznyetski community meant, that she had a lot of uncles, aunts, grandpa's and grandma's, even though most of them were not related by blood. While her mother and father worked, she was raised mainly by elderly who resided home.

Home was a large building surrounded by fields where community members work. Even industrial city like Craggston needs to eat and community where Kira grew up made food their half of their trade. Seconds half of it was fixing things. Especially her grandfather Simon was very good and Kira spent a lot of time with him.

They were mostly fixing machinery needed to tend the fields in exchange for goods. Other farmers around rather went to Simon, then hire expensive fixers in the city. Kira helped him taking great interest.

Soon she was working with him and by age of 13 she even knew how to operate most of the things. That meant also vehicles like tractors and trucks needed for tending the fields.

Driving became something she was very very fond of and her her grandpa only supported in it. When she found out there was an unofficial driving league withing Craggston she went and became part of it.

At first she only worked on vehicle of her friends that driven in the league. Later though she fixed her own car and started racing as well. Her driving was fairly aggressive and very often she needed to fix her car after a race, if not rebuild it. Luckily Craggstown was full of scrap-yards.

Then suddenly when she was 19 years old she was approached by stranger that offered her job. He did not tell what job exactly it was to be at first, but that she would be helping her country. Though young and naive, the agent eventually revealed more and made her clearly understand the nature of exactly what she was getting into - despite this, she agreed.

The Man started training her into a hellion and before long she received combat, infiltration and mind training. The man made her capable to kill if needed. She knew that what she got herself into was dangerous, but she did not mind.

Her first assignment was rather vague. The new group called Paragon was being created and she was sent to just be amongst them. A sleeper agent. She became one of the paragoons, as mercenaries were called sometimes. A tank-driver. Luckily no job came to her and before she knew Paragon fell apart. She hid her tank in the underground of Funky City and secured it.

After that she returned to Vandenberg and lived with her family, until she received new orders. Order to go to planet called Purgatory and meet someone at certain bar.

Skills

Vehicles

Kira is very good driver. She knows how to operate everything from car, tank to an air bike. She is both self-taught and experienced. The Man also gave her additional training in this field. Fighting (close-combat)

The Man taught Kira how to take care of herself in hand-to-hand combat. She does not like to use her fists though and prefers to use tools like batons, knives or staves. When she is forced to use her hands, she likes to use arm-locks and throws rather than strikes.

Culinary

Cooking is important thing for Kuznietski as all important deals should be done over meal. Inviting someone to eat is also great way to present oneself. Kira learned how to cook from her mother and knows how to prepare a large amount of dishes. She also learned how to mix some drinks and present them.

Rogue and physical

The Man trained Kira how to move silently in shadows, without making a sound and how to get to someone without being seen. He also taught her how to get into places, normally out of reach. She is fairly good climber and runner. Also since that is very useful skill, considering her occupation, she was taught how to pick locks.
