History

Born In YE06, Otto was raised by a strict father, who like his son was a marine. A hard man who survived more than he should have. A stout "Red" Nepleslian. Ötto's younger years were spent training, and being "disciplined." Leading the young man to follow the Soldiers life. Enlisting at 16 he found he had a talent for long range precision shooting. Upon his basic training graduation, Ötto was selected for the Sniper or sharpshooters program. Firing within the top three in his class. Quickly showing his prowess, during various skirmishes of the second Mishu War. Eliminating key targets, in surgical strikes during the Rok'Veru offensive. Earned him a spot, to then train with Infamous IPG Commandos. After his promotion to Corporal upon completing his training. The now Corporal Reiter, continued to distinguish himself, with his personal body count rising. Finally a promotion to Sergeant was at hand. Though short lived. Shortly after receiving his promotion,it was quickly rescinded. The now, former SGT Reiter, beat a subordinate to the point, the young man's SPIDER system deployed prematurely. After a tribunal. It was decided on a demotion and removal from the IPG, since the young man ultimately was able to recover. After his outburst. Ötto was reassigned to the 309th to be sent on a "special mission." Little did he know it was to his potential demise.
