History

Family (or Creators)

Star Army of Yamatai

Pre-RP

Datenshi has had a life filled with teachers, classmates, and flings. The girl would have been let out of the academy sooner, would she have not been such a prankster. She doesn't have any serious marks on her record though, as she seems to know where the line is. Since her release from the academy, she has been training and waiting for her assignment.

During her first assignment she was stationed on the YSS Yugumo for a short while, before the ship and project was mothballed.

She was quickly reassigned to the YSS Sakura. Since she was assigned to the YSS Sakura, she has been in one battle where she barely helped to hold the ship together. That was just on her first day. Soon enough she was a member of the Sakura's famous Dare Parties.

The relaxation was short lived as they were soon abducted afterwards by a group of Mishhu and taken to a old Nepleslian base on a frozen planet. After a nightmarish survival effort, fighting off zombies, Mishhu and bugs alike, they eventually escaped back to the YSS Sakura.

Having survived that, she took part in various battles with the YSS Sakura before eventually transferring to the YSS Asamoya Where she served as the wing leader and lead Star Army Armorer for the ship. Fighting along side the crewmembers, Datenshi eventually left the Star army with her friends and crew members when the UOC was formed, joining them on board the UCS Akaramu.

After only a few short missions aboard, her friend Yuriko was killed and shortly after that, the UOC collapsed. Datenshi went through a tough time as she made it back to Yamatai, battling depression due to the death of her friend, her leaving her then lover "Soul Seeker", and a number of other small factors eventually led her to taking refuge aboard the Fruna Ruica where she served as a entertainer, engineer,

and a sort of second in command even if in a informal function to the owner of the ship, Celebration.

Since being kicked off the Fruna Ruica, Datenshi has returned to the Star Army and was placed in the tenth fleet legion, working both planet side and in space as both a power armor wing leader and a armorer when not in battle. She has since become one of the better armorers in the tenth fleet before being reassigned to the YSS Sakura II

Skills

Communications

Datenshi is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other personel through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Datenshi received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor. She also has a small fascination with firearms, and is rather skilled with many forms of them. She also receieved a little training with martial arts, but not much.

She has also learned skills needed to repair most small starships, and even a few larger from her time spent on both the YSS Sakura and most recently the Fruna Ruica both of which

she has served in a repair technician capacity.

Entertainment

Rogue

Being the trickster she is, Datenshi has a natural skill in this area. Often enough she resorts to pick-pocketing something, hiding it, then turning it up int he most often of places.
