Distinguishing Features: None.

Psychological Characteristics

Akira is a very complex individual, and his persona definitely exemplifies that fact. He is a soft persona, or so it may seem, due to his feminine features, and soft voice. But he is actually very ambitious, and hardly submissive to any, except for those he deems necessary (officers of higher rank, et cetera). Ambitious, intelligent, and idealistic would be three words that would almost describe him fully. Of course, his diplomatic nature grants him to have a certain distaste for war; but he sees the necessity of it; so he complies to the demand.

Likes: Learning, Reading, painting, socializing with others

Dislikes: Brutality, Foolery

Goals: Akira's goals know very few bounds; he wants to become one of the most powerful individuals within the Yamatai Star Empire (or one might note, in the galaxy as a whole ^_~)

History

Akira is a fairly young individual, only about four, though he doesn't look it. He was born into a Yamataian body. This is where most of his current skills come from, having been forced into his mind within the pod of his creation. Though some things have come to him because of how he is to be naturally; like his persuasive speech and personality. Hailing from a family of not-so known origin, he intends to join the Star Army for the betterment of his family and himself.

Skills

Communication: Akira is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Akira is fluent in English. He can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

Fighting : Akira received hand-to-hand combat training, followed up with a rigorous training program. He is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons he is trained in include energy pistols, knives, and power armor

Technology Operation : Akira is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. He is proficient in entering and/or searching for information.

Mathematics: basic mathematics training, to including up to algebra and trigonometry.

Leadership (Persuasive Speech): He has an affinity for speaking, a way with words. It is something that is natural to his creative mind. This leads him to often be persuasive in his speech. He uses this to his advantage from time to time, and he has practiced with himself from time to time. His gift is more natural than learned though.

Arts and Vocation: Akira has always been very interested in beautiful things. He often loved to look at the paintings of others, so naturally he took up the art himself. He has taken to oil paintings, of nature and other things of beauty. But now more often than not, he tends toward painting portraits of people he's met.

Humanities (Diplomacy): Diplomacy is something very dear to him as well. Though he has been in the military for the majority of his life; he would rather there be no death and destruction at all. He has read up on many things to this effect. He has also hired a mentor to teach him better methods to evade violence. Though he knows there are times when that is not an option, which is why he remains in the military to this day, to aide in the betterment of the Star Army of Yamatai.
