On the other hand he has an extremely strong sense of loyalty and honor, rarely does he break a promise that he makes to a friend (Due to the fact that he is usally putting on an act, sometimes it's hard to tell who he considers a true friend, and who he's pretending for) as well This is a result of the combination of his Geshrin and ID-SOL up bringing(See history).This leads to several moral dilemmas, but his sense of Honor usually out weighes any of his darker tendencies and characteristics. He is very lonely and depressed, though he can often convince many people he is their friend, he rarely actually feels that camaraderie. Another dilemma is his love of women, he loves flirting, dancing, and all forms of

womanizing, but unfortunately he has never found a woman with his same dark passions to actually last past a one night stand.

Women, Fighting, Reading. Dislikes: Constantly Cheery People, Flowers, Sweet Candy

Goals: His ultimate dream is actually to join SAINT. They are the people who actually see people like the true him as assets. He also wants to train further in his skills, he knows there are others out there who surpass him, and he wants to surpass them.

History Age 0-10 : Training and Torture

Devonus was born the son of Kid Doga, and ID-SOL, and Mira Doga, A Geshrin Cyber kinetics Expert who designed and built his fathers arm and leg. His father worked for a local crime lord and was an intensely brutal and womanizing man.

From about the age of 5 Devonus father trained and honed his son, intending to make him into just as effective as soldier as he was. Unfortunately his father wasn't very loving, so most of his life Devonus hated his father and trained only to escape his father's wrath. His mother on the other hand tried to counter balance her husbands brutal demands and taught him some of the better aspects of life. She shared her joy for song and dance with her son she impressed the joys of classical music from ancient Sol into him. The happiest days of his life were the precious hour or two he would have when he completed his father's harsh training regime and would stumble into his mothers loving arms at her desk while she worked. She would comfort and care for him, nurse and bandage any wounds he received from the days training, all while the comforting symphonies of Bach played in the background in time to his sobs and his mothers whispered words of comfort.

Age 10-19: Hell on Nepleslia

After several years of training his father began to have him run several small errands for his crime lord. Slowly he began to become what the better half of him never wanted to be... a criminal. For several years he was the errand boy of his fathers crime lord, he was slowly but surly raised to be the muscle when his father finally retired. But no matter what he was always physically hurt. His dad stopped holding back during training and nearly beat Devonus to death the one day. He said it was time to be a man, Devonus was barely 15.....

So for years 9 years Devonus dealt with his father's abuse and silently cursed his life and family. Slowly he began to become like his father, savoring the pain and terror he fostered when he fought. He began to develop a mean streak that his mother could no longer ignore and she tried desperately to save what was left of her son's humanity. She begged and pleaded with her husband, but he just ignored her at best.... Or beat her at worst. Devonus began to feel the first aches of depression creep into his heart, the silent fear that he would always be this.... The constant pain of knowing he was becoming that which he hated.

Devonus began to inflict wounds on himself, cutting his wrist and getting in fights, losing on purpose. His father flipped when he realized his son was not only losing (An unforgivable sin in his father's eyes) but also losing on purpose. His father nearly killed Devonus, using his fist and a knife to inflict several wounds to Devonus. The damage was so extensive from Kit's ID-SOL trained body and cybernetically enhanced strength that Devonus was required to be transferred to a Geshrin body.

20-21 The Rise of a Darkheart

After being successfully transferred to a Geshrin body, his father at first rejoiced in his son's new found combat prowess. Able to out fight, out run, and out do anything his father did, Devonus was called on more and more to do the dirty work of his father's employer. He gained a name for himself within the seedy underbelly of Neplesia, gaining a reputation for being the cold and ruthless arm of the crime lords of Neplesia. He was most noted for his calm, quick, and discrete assassinations of the boss's enemies, leaving no witnesses and no evidence in his wake. He killed all in his way, the target, their guards,...their mistress,...the wives,... their sons and daughters.... Any who saw him, heard him, or may have even guessed he was involved died. As his skills grew so did his capacity for cruelty, his eyes always cold and impersonal, he began to engage in random acts of torture, finding release for his own pain through the pain of others...

His father watched all this first in pride at his son's accomplishments.

Through all that Devonus stayed quite, his eyes constantly icy except when alone with his mother. A victim of prolonged abuse he never expected to escape.... But then his mother found a way.

22-present Peace at last.

When Devonus came home alone, covered in someone else's blood.... And crying. His mother decided that was it. Devonus had beat the crap out of his father when his father decided to try and kill one of Devonus's old friends. Though the friend was from long ago (When Devonus was still nice) Devonus refused to just watch someone he had cared so much about get hurt. So now Devonus was getting chased by his father's gang. The only escape was to flee Neplesia... so they went to Yamatai. In Yamatai Devonus received a standard upgrade to a Yamataian body when he expressed interest in joining the army.

Skills:

- **Communication:** Devonus is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Devonus is fluent in English. He can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.
- **Fighting:** Devonus underwent an extensive training regime under his father, a former ID-SOL. He

received excellent training in Hand to hand combat in which he specialized. He is highly dangerous using his hands and melee weapons. He also received training in the use of fire arms and is proficient in the use of most Yamataian fire arms as well as Neplisian weaponry. His natural melee combat skills and weapon training make him well suited for Power Armor combat as well.

- **Entertainment-** Devonus gained quite some knowled of the darker more entertaining aspects of life. He has gained an in depth understanding of the various ways to induce sexual "pleasure". He also is a pretty good dancer, allowing him to pick women. On the lighter side he's has a unique passion for acting, as well as singing (though whether or not he's skilled at it or not he's not sure)
- **Medicine and Science-** Devonus learned many things in his early years and one of them was inducing pain. He knows the physical limits of a body, as well as the most efficient ways to incapacitate or kill an opponent. He also has a basic understanding of how to treat such wounds, but he's in truth more adept at inflicting pain then healing it.
