Physical Description

The Princess Aiko is 180 centimeters tall (5'11") and weighs around 71 kg (156 lbs), and is currently utilizing a [nekowarukyūre taipu 33A](#) body with standard dimensions and elf-style ears. She has a strong, commanding figure that is nonetheless delicately refined to match her beautiful face, befitting her stature as a member of the [Imperial House](#). Like the [Empress](#) she was modeled after, Aiko has long, straight raven black hair and big, almond-shaped eyes that shine a crimson blood-red. Her luminous alabaster skin carries rosy undertones and encapsulates the Nekovalkyrjan perfection she embodies, and is unmarked even by a standard genetic tattoo denoting manufacture information or a Nekovalkyrja serial number. In [YE 46](#), Aiko received a genetic upgrade package that prompted her original Type 33 A body to develop abilities in line with the [Eihei](#) model.

Personality

Prideful in the [Yamatai Star Empire](#) above all, the princess Aiko was born to lead. To her, the noblest pursuit is the good of the Empire and its people.

While brought up with a silver spoon in the Imperial capital, learning to be waited upon at every turn by royal retainers and handmaidens, she is neither lazy nor entitled in any endeavor — and is utterly pure to the core. Her personality tends to be ironhanded, and the princess is almost entirely unwavering in her convictions. In other words, much the same as her mother, [Yui](#), she is a bold and opinionated Neko whose presence can inspire courage in any Star Army soldier or Yamataian citizen. Still, Aiko is intelligent and calculating with a fiery curiosity running through her veins, and she always acts with the same patience honed since her birth.

History

Ketsurui Aiko's existence began just after [Yule Tide festivities](#) in [YE 38](#) in the city of Kyoto, Yamatai. Aiko is [Taisho Yui](#)'s sixth daughter. She was created as a propaganda tool for the [Kuvexian War](#), intended to become a figurehead who could represent the heart and soul of Yamatai on the front lines. While born as a [military-type Neko youngling](#) with all of Yui's core personality and basic training, the princess was given a fully-formed body immediately after birth and spent most of her socially formative *days* — literally — at the [Empress' Palace](#).

In the time before any major offensive in the Kuvexian War was planned, she rotated through different

assignments within the [Star Army of Yamatai](#) to learn compassion for her fellow soldiers and what it meant to serve alongside her Empire's best citizens. Almost immediately after her creation, Aiko took a particularly intense interest in learning to pilot a [Kirie Thought Armor](#), but was formally designated as a [02B: Public Relations Liaison](#).

YSS Kaiyō

Aiko's first assignment in the Star Army was to the [YSS Kaiyō](#), a [Plumeria-class \(2D\) Medium Gunship](#) in the old [First Expeditionary Fleet's Sixth Squadron](#). As an officer candidate, her foremost duty was to learn the ins-and-outs of being a Star Army officer from the captain, [Teien Eden](#). In her time there, Aiko faced down the [Mishhuvurthyar](#) in personal combat and slayed other enemies of the Empire, but spent most of her time in otherwise uneventful study.

In [YE 40](#) the [YSS Kaiyō II](#), the Kaiyō's new [Fuji-class](#) replacement, was assigned to secret [Transuniversal Operations](#) following the discovery of an [AvaNet Avatar](#) on [Yamatai \(Planet\)](#). By then, Aiko had completed both basic and command [officer training](#) and had subsequently been promoted to full [Shoi](#). Because the threat of both [internal](#) and [external](#)⁴⁾ subversion against her mother [Yui](#) and Empress [Himiko](#)'s regime, she was permitted to remain on the Kaiyō II in spite of its dangerous and classified mission with additional orders to receive training in [Star Army Intelligence fieldcraft](#) under [Hime no yōjinbō Saika](#)⁵⁾. Her absence on [SANDRA](#) and [YINN](#) nightly [volu-reels](#) depicting the Kaiyō and [First Expeditionary Fleet](#) heroics was explained away by official assignment to the [Office of Public Affairs at Star Army Command](#) for further studies on diplomacy and propaganda.

Inventory & Finance

Aiko has the [Star Army Standard Issue Items](#) and a custom hand forged ceremonial [katana](#) furnished in white. At some point during the Kaiyō's mission to the [Ayenee Universe](#), Aiko obtained a second katana with gold and ivory trappings. In addition to her two personal swords, Aiko has been issued a [Star Army Officer Sword, Type 40](#) and was awarded a [Kaiyo Sword](#) for her time aboard the ship. She is known to wear two barrettes adorned with the Yamataian [bellflower](#) at her temples, though lately more often wears one bundle of bellflowers over her right ear. The [Hinomaru](#) patch on her uniform's right arm is embroidered with a gold border to denote her status as a member of the Ketsurui Clan.⁶⁾ Aiko has all of the [Kaiyō Year-End Traditions](#) gifts and these are counted among her most treasured possessions. Following the [YE 43 Battle Of Glimmergold](#), she was gifted an NSP to match her katana by [Legion 777](#) when the legion's leadership made her an honorary [Centurion](#). The princess commissioned⁷⁾ a custom [Extreme-class Hoverboard](#) from its creator and is an avid rider.

Roleplay Notes

Aiko's [Kirie Thought Armor](#) during the Kuvexian War was named Ryūketsu (竜血), or “dragon blooded” in Trade. It was destroyed during the [Battle Of Glimmergold](#). She fabricated and hand built its replacement to pre-YE 39 specs during downtime after the war.

Over the years, the Princess Aiko has garnered several nicknames from both friends and enemies alike. The YSS Kaiyo II's crew and Legion 777 affectionately call her *Karasuhime*⁸⁾ owing in large part to her long, abyssal black hair and its subtle iridescence that brings to mind a raven's feathers. Among the Kuvexians she is known by many derisive sobriquets, but is most commonly disdained as the *Red Demon of the Bellflower Empire*⁹⁾ because of her many famous victories — particularly wearing power armor with livery in shades of red — at the expense of the Interstellar Kingdom.
