History

Lauren Strong was born in YE 39 on the planet of Nataria. She went through basic and infantry training, then was stationed aboard the Kaiyo after traveling there aboard a transport ship just before the Kaiyo was planning to take a station. The station was taken despite some of the SOFT 501 not making it. In the next mission she was one of those that explored the Temple of the Stars. She was also with the crew when they went to Ayenee and was one of the only away team member that couldn't enter an aether sphere while in a different universe, other than Ayenee, which the crew ended up destroying. She acted as scout. Later, back in the Kikyo Sector she was a part of the efforts to de-weaponize Planet H on the team of Murakami Mitsuko. She then went to a mirror universe on a mission to take down their version of Eve. While out there, she was clipped by a ship's point defense. She is currently engaging hostiles in this universe.
