Physical Characteristics

- Height: 5'6"
- Mass: 147 lbs
- **Measurements:** N/A

Build and Skin Color: His pale jaundice skin tone and slender frame conceal a honed, athletic physique. He has narrow shoulders and longer-than-average fingers which are quite dextrous.

Eyes and Facial Features: He has pale blue almond-shaped eyes and a short, rounded nose. His cheeks are slightly gaunt, and his chin is flat. His mouth is small and barely moves when he speaks. He generally maintains a stoic expression, though his eyes tend to reveal his true feelings.

Ears: His ears are rounded and slightly protrude from his head. During periods of emotional duress or embarrassment, they flush in quite noticeable contrast to their regular hue.

Hair Color and Style: He has shoulder-length, straight matte black hair which he keeps tied back in a topknot while on duty. Off duty he lets it hang freely. He keeps his face clean-shaven when possible.

Distinguishing Features: There is a small blemish on the back of his neck, shaped like an upside-down 'V' when viewed standing normally. No treatment or surgery has been successful in removing the mark, and all medical scans have concluded it is a benign skin abnormality.

Psychological Characteristics

Personality: Jairen is a serious-minded individual devoted to medicine. He is generally quiet-spoken, using only enough tone and volume of voice that the situation requires. Some people mistake this for shyness, but Jairen is an introverted extrovert, preferring casual social acquaintance to boisterous gatherings. Cool and collected under fire, he takes any available information in before making decisions, leading others to believe him slow-witted. But his tactical approach to situations is unique and creative, frequently involving conventional methods used in an unconventional manner. He values life, but understands that sometimes death is necessary for survival. To this end, he is willing to take a life to save a life, whether another or his own. He likes to solve problems, seeing them as a test of his faculties and a way to gauge his personal growth. Above everything, he is loyal to those who have earned it, willing to put his life on the line to protect them and their ideals from any transgressor.

- **Likes:** Listening to music (notably classical string instrumental), Tai Chi Chuan (as exercise), reading, chocolate ice cream, and cats.
- **Dislikes:** Overly-elaborate or drawn-out ceremonies, loud and/or obnoxious people, insects that sting or bite, and hyperspace travel.
- **Goals:** To become the best doctor he can be, an asset to all Yamatai everywhere.

History

Family (or Creators)

Suigin Rakai, Father (deceased) Suigin Helena, Mother (deceased)

Pre-RP

Born as a Geshrin in YE 14, shortly before the Second Elysian War. Jairen spent a typical childhood on Kilnar with his parents, Rakai and Helena. Rakai was a bioscience technician, working on the staple crop yield improvement program being developed that year, while Helena maintained their household and raised their only child. Jairen was an active and curious child, always asking questions with an almost insatiable desire to learn more.

At age 13, his family relocated to Yamatai to transfer into the new Yamataian bodies that had been developed. An accidental scalar discharge at the transference facility caused his father's untimely death, and Jairen was raised by his mother alone. Devoting himself to his studies to avoid his patriarchal loss, Jairen was able to complete his high school learning early, graduating at the age of 15.

In the last quarter of YE 29, Suigin Helena was diagnosed with a rare genetic mutation affecting her central nervous system, which caused rapid neurodegeneration and personality loss and rendered a body transfer impossible. She passed away two months later in a vegetative state, leaving Jairen a ward of the state. Questioning why current medical practice had been unable to save her, he concluded he could do better, and set out to prove it.

At the age of 16, he enrolled in the Great Imperial University's medical curriculum, and spent 2 years learning under the finest medical minds in the galaxy. With the Second Mishhuvurthyar War devastating SAoY forces and cutting a swath through Yamatai space, a call for trained medics went out, and he enlisted in the Star Army at 18.

He is fluent in English, and can speak and write it correctly and efficiently. He can write reports, fill forms, issue orders under fire, etc.

Fighting (Basic)

Jairen received hand-to-hand combat training, followed up with a rigorous training program. He is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons he is trained in include energy pistols, knives, and power armor.

He can operate most types of medical equipment, perform surgery in both combat and non-combat situations, dispense medicine, and provide short-term care to multiple patients, either in the field or a hospital environment.
