Physical Description

Born a human (Genshirn) of Yamataian descent, Yoshinaga Narumi is 175cm and weighs 55kg. Her reddish violet almond-shaped eyes tend to be the first distinguishing figure on her heart-shaped face. Her black hair that she tends to keep in a ponytail does not tend to attract attention, nor her slender build typical for women of the Star Army of Yamatai.

Body measurements: 36C-29-37

Personality

Coming from a family of farmers, Narumi has a very professional minded, caring and down to earth personality. Though in situations where those she cares for are in danger or she loses her cool, she swiftly shifts into what can only be called “oni mode”. The farmer's side of her disappears and a more predatory side emerges.

Perhaps it was always there or a side effect of her Giretsu training or it was always there. Who knows.

History

Born in the backwater of Yamatai to a pair of rice farmers, she spent most of her childhood on Anisa. Narumi would wake up in the morning to spend her childhood days helping with the farm. When she was old enough, going to school would cut into some of that time. But she was still expected to help with the farm. She would have spent the remainder of her days growing rice if not for the actions of the empire.

In YE 34, 200+ million UOC refugees were dumped onto the planet due to the war with the NMX. At the time, the huge influx of people with a completely different cultural outlook was a shock to her. She initially kept her distance away from them since children of the refugees quite willing to retell the horrors of the war to her. But the more she listened to her, the more she started to become restless about the condition of the universe.

So when she turned 21, she decided to enlist in the Star Army of Yamatai as a clerk. And she would have likely remained a simple clerk if not for a chance encounter with a fellow young Korean male. Telling her about the Giretsu he had been researching since noticing them show up in recruiting videos recently, she decided she would add the Giretsu option to her enlistment contract.

Signature fixed to the contract, she was taken away to neighboring Fort Ready on Nataria for basic training before ending up on the nightmarish swamps of Fort Ingestrie. Transferred into a type 33A body, she would spend the next 8 weeks being sharpened into the kind of warrior worthy to wear the triple sakura blossoms. When she arrived for training as a clerk afterward, she spent most of the time eating and recovering from the ordeal.

Assigned to the G/4th for the last year, she now finds herself assigned as the clerk to the YSS Kaiyo II.

In YE 43, Harumi was assigned to the headquarters of Star Army Personnel Command and advanced in rank to Jôtô Hei.
