S6-P1

This weapon was created by Jack Pine, in the year YE 39, for use by the Skyguard .

About the S6-P1

The Skyguard did not have a standard sidearm for its pilots. Jack Pine designed the S6-P1 in response to this. Seeing as the pilots would need a reliable sidearm for the possible and dangerous event that they had been shot down in a combat zone. The S6-P1 provides high stopping power, easy handling, and a fast cycling means for self-defense in a compact package.

Nomenclature Information

- Designer: (Jack Pine)
- Manufacturer: (Frontier Service Corporation), Department Of Engineering
- Name: (S6-P1)
- Nomenclature: FS-W1-1A, S6-W1-1A
- Type: (ballistic)
- Role: (personal defense pistol)
- Length: (7 1/2 inches long, 1 1/4 inches wide)
- Weight: (5 pounds)

Appearance

The upper is rectangular with rounded edges. With the slide only being a section of the back of the

upper. The lower including the grips is more curved in for the fact that it has been designed to fit in the hand comfortably, with the grips textured and an over-hanging part over the hand to protect the user from the slide when it cycles after firing. The sight sits on top of the upper with one equipped with a night sight piece, and two in the back that together for aiming.

Discharge Information

- Muzzle Flash: consist of a small red hue flash out of bore and the top porting, that tends to reduce visibility for split second.
- Retort: The discharging of the pistol sounds like that of a baseball bat hitting a steel barrel.
- Projectile/Beam Appearance: The round is only visible momentarily after exiting the barrel, with the appearance of a small fiery projectile.
- Effective Range: (35 yards)
- Rate of Fire: (4 rounds per second.)
- Recoil: Recoil is sent backwards with moderate force, but is largely negated by the release of gases through the top side porting.

Ammunition (Or 'Energy Source' if applicable)

- Ammunition: .45 Nepleslian, S6-ICGR, S6-SCPR
- Average Damage Rating (Version 3): Tier 1
- Round Capacity: 12 round magazine.

Weapon Mechanisms

- Firing Mechanism: Gas operated
- Loading: 12 round capacity magazines.
- Mode Selector: Semiautomatic only.
- Firing Modes: Semiautomatic, fires as fast as you can pull the trigger.
- Safety Mechanism: None, rack the slide and it is armed.
- Weapon Sight: Sight consist of three sighting fins, one on the top at the front of the upper with built in night sight piece, with two in the rear on the slide. all three are to be lined up and level to hit targets.

Other

Pricing

- S6-P1: 150 KS/300 DA/600 DS

Replaceable Parts and Components

- none

Optional Attachments

- none

OOC Notes

Jack Pine created this article on 2017/06/17 12:17.

Products & Items Database	
Product Categories	weapons: pistols
Product Name	S6-P2
Nomenclature	FS-W1-1A
Manufacturer	Black Wing Enterprises, Department Of Engineering
Year Released	YE 39
Year Discontinued	YE 41
Price (KS)	150.00 KS
DR v3 max	Tier 1
