

Talon TSP

The Talon Tactical Self-Loading Pistol is an attempt to create a versatile, easy-to-produce yet effective tool for units who needed versatility in the field, yet at the same time needed something which was effective in more normal settings as well. The Talon was designed with this in mind, both customizable and consistent, and capable of serving in a wide variety of roles as needed.

- Purpose: Anti-Personnel, Stealth Missions
- [Damage](#): T1
- Effective Range: 260 ft (79.25m)
- Magazine Size: 11 rounds standard, 17 in extended mags

Detailed Information

Cranth TSP-01

Designer/Manufacturer: [Cranth Munitions and Services](#)

(Suggested) Price: 450 KS

Available for Purchase: Anyone, anywhere.

Nomenclature Information

Type: TSP-01 - Short Recoil based action, chemical

Model: TSP-01 - Original model of the pistol, basis for any further development of specialized versions.

Role: The primary role of this handgun is to serve as a secondary weapon in combat situations. Its capacity for customization allows it to serve in any role for which the proper attachments can be found.

- Length: 240 mm (9.45 in)
- Barrel Length: 153 mm (6.02 in)
- Weight: 848g/1.87lb unloaded
- Maximum Range: 520ft (158.5m)
- Muzzle Velocity: 850 ft/s
- Rate of Fire: Semi-automatic
- Ammunition Type: .45 NAM

Recoil: Mid-range. Though not massively powerful, the Talon does give a decent kickback when fired. It can be safely fired without fear of injuring yourself without bracing and such.

Discharge Information

Ammunition Types:

- Standard - Grey tipped - Simple jacketed round, no caveats. Tier 1, Light Anti-Personnel
- Armor Piercing - Blue tipped - Full metal jacket boat-tail round specifically designed for Match purposes. Tungsten penetrator cap with copper jacketed steel core. Designed to penetrate body armor, not powered armors or other such heavy armor. Tier 1, Light Anti-Personnel
- Hollow Point - Green tipped - Standard round, with a hollowed out tip, while retaining the external profile. Intended for use only on unarmored targets, capacity for damage drops immensely if used against any form of armor. Tier 1, Light Anti-Personnel
- Extended magazines may be available for purchase, depending on location.
- Though not recommended, the Talon can potentially use any round of a similar enough size. This may, however, lead to catastrophic failure.

Firing Mechanism: Semi-automatic chemical firing system. Muzzle Flash: Moderate muzzle flash, easily reduced through suppression systems.

Weapon Mechanisms

Fire mode selectors & Safeties: Located above and behind the trigger, right handed. Two options - S(Safe), and F(Fire).

Weapon sights: The Talon makes use of a three-dot type weapon sighting system, with the rear sights being completely adjustable (within reason) and the front sight raised to prevent silencers interfering with sighting.

Maintenance Information

Field Maintenance Procedure: Standard cleaning measures may be taken to maintain the Talon. It is recommended that the firing mechanism be wiped down, in addition to the barrel, after any period of extended use, or if it has been some time since the Talon was last fired. Users should also care for any other moving parts whenever possible, to maintain efficiency of operation.

Replaceable Parts and components: Any of the parts can be replaced with similar, match-grade parts at any time. Function is improved if all of the components are manufactured together and matched as one rather than put together piecemeal.

Additional Information

The Talon was designed with three rails along both sides and the bottom of the barrel. These slides are all capable of utilizing any standardized attachments, size permitting.

Parts

- Extra Barrel (75 KS)
- Extra Slide Spring (45 KS)
- Spare Magazines (15 KS Each)
- Extended Magazines (20 KS Each)
- Trigger Job (30 KS)
- Box of 60 Standard Rounds (20 KS), Box of 48 Alternate Rounds (25 KS)

Accessories:

- Black/Brown Leather Waist Holster, carries 1 extra magazine (30 KS, Free with purchase)

- Black/Brown Leather Shoulder Holster, carries 1 extra magazine (50 KS)
- Black/Brown Leather Thigh Holster, carries 1 extra magazine (40 KS)
- Black/Brown Leather Ankle Holster, carries 1 extra magazine (40 KS)
- Black/Brown Leather Chest Holster, carries 1 extra magazine (30 KS)
- Magazine Pouch, attaches easily to belt, carries 3 extra magazines (25 KS)
- Flashlight attachment (15 KS)
- Tactical Laser (40 KS)
- Sound Suppressor (65 KS)
- Flash Suppressor (30 KS)

Additions

After some deliberation, it was decided that the requests they'd received justified making the parts available to do a sanctioned conversion of the gun to 10x25mm KZ rounds instead of its standard .45

NAM.

- Conversion Kit (instructions, parts, warranty) (300 KS)
- Mini-conversion Kit (parts only) (150 KS)
- Retooled magazine, holds 13 rounds (20 KS Each)
- Retooled extended magazine, holds 20 rounds (25 KS Each)
