

Panacea

Panacea is a gel-based, topically-applied antibiotic.

- Manufacturer: [Emrys Industries](#)
- Price: 10 [KS](#) per 10 ounce bottle of gel

History

Panacea was among the first medical products developed by Emrys Industries. Its formula originates with the Emrys Clan itself, having once been a Clan-only remedy that was never sold with the public. The ambition of [Seru Emrys](#), who took over Emrys Industries in [YE 28](#), saw the product formally developed and marketed primarily to [Nepleslians](#). At the time, Seru Emrys was marketing various other products to the newly-independent Nepleslia such as the [EM-M1 Enforcer Powersuit](#); medical technologies like Panacea were also sold to [Ohara](#), homeworld of the [Phods](#), after the [Amendment To Treaty With Ohara](#) allowed medical technologies to be imported to the planet.

Panacea was, from the beginning, compatible with [NH-22C Yamataian](#) bodies, and was later adapted to [Minkan](#) bodies in [YE 33](#).

Overview

Panacea is a translucent, sticky antibiotic gel which is completely clear to the naked eye. The typical bottle of Panacea has a cap at the end, and the bottle is squeezed to extrude its contents. The bottle's labeling includes the classic Emrys Industries logo, which began to include the [Tamahagane Corporation](#) tagline after Tamagane acquired Emrys in [YE 33](#).

Effects

On its own, Panacea is merely an antibiotic gel. It protects an injury site from infection, and the gel keeps some foreign material from entering the site. It can treat bacterial infections generally, though it is not targeted toward any specific strain of infection.

Side Effects

It is possible for the antibiotic gel to capture too much foreign material if the patient being treated is in a dusty or dirty environment. A gel that is too gunked up with foreign matter may become crustlike, or allow that gunk into the wound if it remains dirty for too long. Ingesting Panacea has not been reported to cause side effects in Nepleslians or Minkans, aside from its unpleasant, gummy taste.

OOO Notes

- This was an unfinished WIP article by [Nashoba](#). It was completed by [Hollander](#).

Products & Items Database	
Product Categories	drugs
Product Name	Panacea
Manufacturer	Emrys Industries
Year Released	YE 28
