

EM-J5-E3601 - AI

The EM-J5-E3601 AI was developed for use in the [EM-J5 Flying Assistant Robot Series \(FARS\)](#), it became available in [YE 36](#).

About the EM-J5-E3601

The J5-E3601 is a fully functional artificial intelligence, which is capable of learning but lacks sufficient capacity to achieve sapience. By default it has no programmed personality. This is supplied by the [EM-J5-M3600 - Emoticon pack](#).

Details

- Manufacturer: [Emrys Industries](#)
- Nomenclature: EM-J5-E3601
- Type: AI
- Class: Electronic
- Designer: [Tamahagane Corporation R&D](#)

Initial Programming

All EM-J5's equipped with the J5-E3601 have the following capabilities upon activation.

- [EM-J2 Behavioral Paradigms](#)
- [Basic motor skills](#)
- [Language Yamataigo \(邪馬台語\)](#) or [Trade \(language\)](#), customer option
- [Basic item interactive knowledge](#)

Program Definitions

This section provides details about the programming.

Basic motor skills

All EM-J5 have complete knowledge of how to move and control their body. They are capable of walking,

running. They can sit and stand without difficulty. They are capable of picking up and interacting with objects.

Language

All J5-E3600 have a working knowledge of the language(s) preloaded. They are capable of carrying on a conversation in the language. Their initial speech form is very formal. However, the base programming does not include idioms, slang, contractions, and dialects. When confronted with one the AI will ask the speaker for clarification. With experience the J5-E3600 will learn and integrate their usage.

Basic item interactive knowledge

The J5-E3600 is programmed with a basic knowledge of how to interact with its environment. It pick up objects without breaking the accidentally. They can easily use manual and electronic doors. They can use keypads and other mechanisms.
