

# EM-J5-E3605 - Light bar / Holoprojector

*Emrys Industries*

*A Tamahagane Company*

The EM-J5-E3605 was developed for use in the [EM-J5 Flying Assistant Robot Series \(FARS\)](#), they became available in [YE 36](#).

## About the EM-J5-E3605

The J5-E3605 consists of two features. The light bar which allows the EM-J5 to communicate non-verbally. The bar can light up in a variety. It can become a single color wrapping around the robot. It can create a strobe light effect by making moving points of light. These can be used to indicate a danger to the left or write by creating red points moving in the indicated direction. The light bar is also interfaced to the [EM-J5-M3600 - Emoticon pack](#).

The other feature is the retractable holo-projector located in the front of the robot. It is capable of projecting an image from 3" x 3" up to 12" x 12". It is primarily used to display the images from the [EM-J5-M3600 - Emoticon pack](#). The other function is it can be used to display information to groups of people, typically when used by law enforcement personnel.

## Details

- Manufacturer: [Emrys Industries](#)
- Nomenclature: EM-J5-E3605
- Type: Interface
- Class: Electronics
- Designer: [Tamahagane Corporation R&D](#)
