EM-J5-M3613 - High Definition / 3D camera

The EM-J5-M3613 - High Definition / 3D camera was developed for use in the EM-J5 Flying Assistant Robot Series (FARS), it became available in YE 36.

About the EM-J5-M3613

This accessory adds a pair of 3“ wide high definition cameras to the robot. The accessory has its own storage which can be removed. By extending the cameras apart from each other, the unit serves as a 3D camera taking the inputs from both cameras and creating a composite image.
