

Geshrinari Standard Computer Room

The computer room contains the core of the ship's computer system on all [Geshrinari Shipyards](#) designed ships. It is normally inaccessible except to the ship's captain and certified technicians. There is a single [standard ship's door](#) which is kept locked at all times. There is a holographic projector mounted in the room. The computer is lined with various access panels, control panels, and displays. An emergency generator system is also available which powers the mainframe when primary power fails. There are a pair of [Fire Extinguisher](#) s mounted on either side of the computer. There are two lockers on the back wall which store repair parts. There is a [Geshrinari Standard Console](#) in the room used by technicians.

There is ceiling mounted lighting, as well as [Ge-Y1-E3104 - Automatic Fire Suppression System](#) dispersal nozzles through out the suite. The floor is covered in a non-static surface.
