

Geshrinari Continuum Distortion Drive

The [Geshrinari Shipyards](#) manufactured [Continuum Distortion Drive](#) (CDD) is a reliable propulsion system that dates back to the early days of the company. It is primarily installed on ships that [Geshrinari Shipyards](#) intends to sell outside of the [Yamatai Star Empire](#). The CDD can be used to propel the ship at FTL and STL speeds.

Like other [CDD](#) designs it incorporates a pair of nacelles to produce its field.
