

Geshrinari Maneuvering Thrusters

Geshrinari Shipyards vessels are equipped with maneuvering thrusters. Maneuvering Thrusters are arranged at various points along the vessel's axes. These [ion thrusters](#) are used primarily attitude adjustment, docking and station keeping. Each thruster module has two adjustable thrusters, and their own fuel supply. They are noted for their pale blue glow when firing.

Properly engaged the thrusters are capable of achieving a maximum acceleration of 10 m/s^2 .
