

Conquest-class Battleship

The Mishhuvurthyar were starting to really scare the Empire in [YE 28](#). Concerned the [Mishhuvurthyar](#) would overrun [Yamatai \(Planet\)](#), and because of a number of other age-old issues, the Nepleslian government seceded from the [Yamatai Star Empire](#). A couple weeks before they did, [Geshrinari Shipyards](#) received orders to start work on a new battleship that would be a “symbol of [Nepleslian](#) military might” and that would be “as good as [Star Army of Yamatai](#) ships.” The project was assigned to [Clark Thompson](#) and his Elysian assistant, Abdyel. Over the course of many meetings (and romantic encounters), Clark and Abby created an impressive yet impractical design.
