

# Havok Customs

Havok Customs was founded by [Jackson Winston-Allibaster Howard](#) in early YE 39 after the SAoY mechanic struck literal gold during a [Second Chance Salvage Company](#) giveaway event in late YE 38. Jackson saw his new wealth as an opportunity to make money from his old hobby of modifying and repairing airbikes.

## Logo and Slogan

Havok's logo is a simple, red "H" that is designed to look like it was created by the claws of a big cat.

**Slogan:** *"Wreak some Havok."*

## Target Audience

- Airbike racers and enthusiasts on both Nepleslia and Yamatai
- Adrenaline junkies
- Military and law enforcement entities who operate airbikes and need specialty work done.

## Mission

- To provide custom, one of a kind airbikes to riders who are dissatisfied with the performance or design of mass-produced "one size fits all" models sold by most large corporations.
- Repair or modify existing models of bikes to the rider's specifications.
- Provide custom graphics and other aesthetic modifications to airbikes and small personal vehicles.
- Eventually develop means for mass-production.
- Custom weapons.
- Custom ship modifications.
- General R&D.
