

Kaidan Telecommunications

A small time telecommunications company based in Kyoto Yamatai. Kaidan Telecomm has been known for their work in trying to start a fledgling entertainment venue called "Immersion Gaming" or IG. To date they have released several communicator style handheld games that are downloadable from their company's Network for a minor service fee. Currently they have begun work on a major venture that they hope would catch on as a means for starship crews to unwind with.

The company signed a small time, but growing synth/dance band to preform the music sound tracks for their games, the band is named [Echoes](#).

Games that have been released

Handhelds

* [Mishhu Invaders](#) - A Run-and-Gun Shoot'em Up set in Funky City during the Mishhu bombardment. * [Galaxy Adventure](#) - An RPG game where you play as a man (or woman) searching for fame in the universe. * [Neko No Oden](#) - A relatively strange puzzle game, involving foodstuffs and Neko.
