

Origin Industries Standard Kitchen

[Origin Industries](#)' standard starship kitchen is a relatively nice one. It can be run in three ways: Like a fast food shop, Mess-hall buffet style, and like an actual restaurant. How it is run however, is up to the staff. It includes everything needed to cook: Ovens, grills, barbecues, stoves, microwaves, and almost any implement a chef could ever need. The menus depend on what food is stored on the ship.

Dishes are cleaned via a large dishwasher, which has the capacity to clean about half the dishes and utensils used by the kitchen. Cooking implements are hand cleaned in a large sink that is next to the dishwasher. This sink has a disposal system which grinds food into small particles that are eventually filtered out and recycled in some way.

Trash is disposed mostly with a trash compactor. The compactor has a $1M^3$ capacity, and can crush things down to 1m x 1m x 5cm. These crushed pallets may be recycled or simply disposed of in port.

Usage

As a standardized component, many of the ships produced by [Origin Industries Fleet Yards](#) use this in its stock configuration or with slight variation.

Small Ships

Small ships that include the Origin Industries Standard Kitchen

- [Jinkan-class Escort](#)
- [Justicar Mecha Carrier](#)
- [Princess Class Yacht](#)

Medium Ships

Medium sized ships with the Origin Industries Standard Kitchen

- [Raider Class Version Three](#)
- [Courier 2c 'Collector'](#)
- [Kouken-Class Escort](#)
- [Serendipity-Class](#)
- [Assayer Class Starship](#)

Large Ships

Larger ships with the Origin Industries Standard Kitchen onboard

- [Caravan Heavy Freighter](#)
- [Karakoram-class Mecha Carrier](#)
