Origin Security Uniform

designed in [YE 32](#), the [OriSec](#) Uniform is very similar to the standard [Origin uniform](#), with some notable differences. The main differences are less or muted colors, darker motifs, and a different optional hat.

Shirt

The OriSec uniform shirt is a Black or olive green [T-Shirt](#), which can be short or long sleeved. A shirt-color OriSec logo is stitched onto the left breast.

Jacket

The OriSec jacket is a short, somewhat heavy black Tunic, with green piping around the shoulders, about three inches down, with two blue rings of piping near the ends of the Sleeves. It is worn with a dark blue belt that has gunmetal black buckle etched with the OI logo.

Overcoat

When in environments with harsher weather conditions, a long black hooded anorak similar to the jacket may be worn. The back of the overcoat has a large, black OriSec logo located in the center.

Bottoms

The OI Uniform can be worn with black slacks, or either a long or short black pencil skirt. (females only)

Hat

OriSec guards are allowed to choose between a black version of the standard Origin hat, or a black ball cap with the OriSec logo on it.

Footwear

OriSec officers are required to wear [Combat Boots](#). The boots are mid-calf height and made from either treated leather or a fire-resistant synthetic material which is also waterproof. Both styles of boots come with slip-resistant synthetic rubber soles, and zip up the front with a locking zipper. They come in black, and have green and blue accents on the soles.
