Appearance

Discharge Information

Firing Mechanism

Upon pulling the trigger, energy is drawn from the battery and focused through a series of lenses to produce an energy blast. Stun mode only sends energy through one lens, causing a shorter range, non-lethal blast.

Ammunition Description

- **Power:** Tier 1, Light Anti-Personnel
- Effective Range 200 meters Semi-auto/auto, 50 Stun
- Maximum Range: 200 meters Semi-Auto/auto, 50 Stun
- Muzzle Velocity: 1C
- Muzzle Blast: A green flash in semi-auto mode, a blue flash for stun mode
- Firing Mode: Semi-automatic, Automatic, stun
- Recoil: Little to none
- **Battery:** [Interchangeable High-Volume Capacitor](#)

Weapon Mechanisms

- **Safety:** button below the rear gun sights on the right
- **Fire Mode Selector:** auto/semi-auto/stun switch on the left side of the gun
- **Weapon Sight:** manual sights on top of the gun
- **Attachment Hard Points:**
- **Battery:** The Battery is removed by twisting counterclockwise and pressing the knob on the front of the gun. When replacing the battery, the knob must be twisted Clockwise to lock the batter in place.

Other

Field Maintenance Procedure: Wipe and clean after every mission, taking care to scrub the barrel down and all moving parts.
