Former Assets/Locations

Murf

RyuK's original source of materials before their cooperation agreement with [Yugumo Corporation](#) and [Osman Heavy Industries](#) moving in. All RyuK assets were moved to the Tange System in [YE 42](#).

Tatiana

As part of their consolidation efforts in [YE 44](#), the RyuK moved their corporate headquarters, employees, and other assets from the tightly controlled planet.

Daichi

As part of consolidating their assets, the RyuK sold their mining and shipyard assets to a third party in early [YE 44](#). It was also done due to the increasing costs of dealing with leftover [Kuvexian](#) corsairs and mercenaries between the system and main Yamataian space.

Nepleslia

[Ryu Heavy Industries](#) and [Sakura Machinery](#) Nepleslia Divisions were sold to a third party in mid-[YE 44](#) in anticipation of pushback for the RyuK's growing partnership with the [Nepleslian Reds](#).
