

Styrling Longbolt

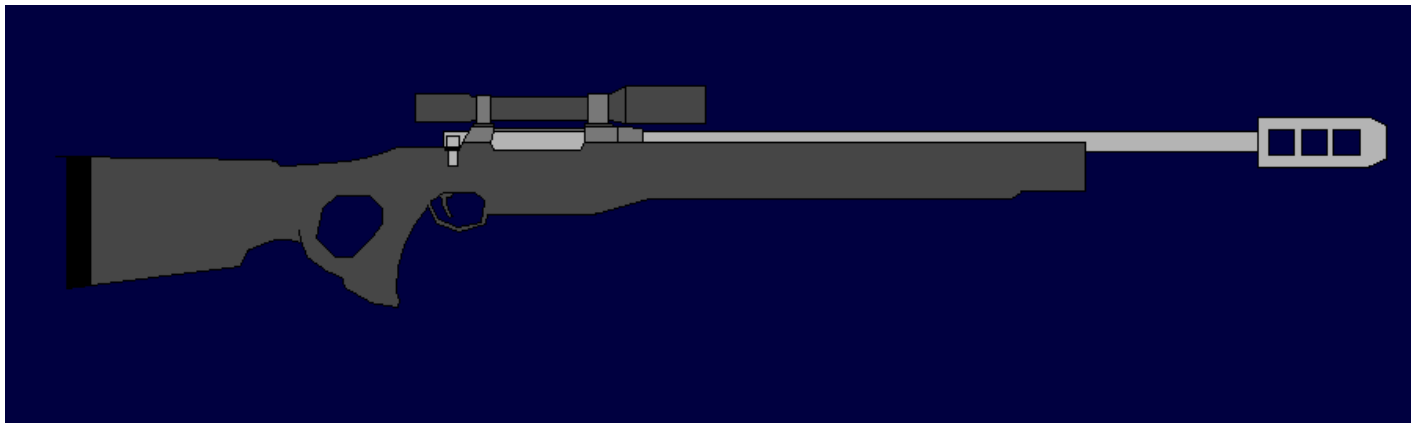

Aimed at the consummate hunter, the Styrling Longbolt is a straight-pull bolt-action that fires punishing, high caliber rounds ideal against big game. Though labeled as a sport and hunting rifle, the high caliber punch and generally excellent accuracy has made it a favorite among less competitively-minded marksmen. Unfortunately, the weapon suffers from heavy weight, making it tiresome to carry for some people, and high recoil, though the latter is offset by the bolt action system, which makes rapid follow-up shots impossible in the first place.

Weapon Specifications

Nomenclature Information

Designer: Foster Kees Styrling Manufacturer: [Styrling Vervaardiging](#) Name: Styrling Longbolt Rifle (Sv-SLB-01a) Type: Straight Bolt Action Rifle Role: Marksman/Hunting Rifle Length: 47.3 Inches **Barrel Length:** 34 Inches Mass: 15.97 lbs **ROF:** Depends on the shooter's ability re-chamber rounds using bolt action.

Appearance

Discharge Information

Projection/ammo type: Styrling 10 x 58mm Rounds

Firing Mechanism

Straight Bolt Action

Straight bolt action requires pulling back on the bolt, situated on the top rear of the firearm with a bar jutting sideways for easy pulling, to discard the casing from the old round and rechamber a new one. Rounds are fed from an integrated magazine about an inch in front of the trigger guard. Because of the nature of the magazine, the weapon can only be reloaded manually, or with the assistance of clips.

Ammunition Description

Caliber: 10mm Effective Range 900+ Meters Maximum Range: 1500+ Meters Muzzle Velocity: 900 m/s Muzzle Blast: White flash and smoke from barrel, audible "bang" from gun. Firing Mode: Bolt Action Recoil: Medium, lowered via a 2 inch compensator near the end of the barrel.

Styring 10 x 58mm Standard

Visual Description: Long, copper-coated, brass-cased, rimless FMJ Spitzer round with a white stripe near the back of the casing. **Ammo:** 6 per magazine, 1 in chamber **Damage Description:** (PDR:4) Heavy penetration and kinetic force. May occasionally overpenetrate a humanoid target.

Styring 10 x 58mm HE

Visual Description: Long, copper-coated, brass-cased, rimless HE Spitzer round with a red stripe near the back of the casing. **Ammo:** 6 per magazine, 1 in chamber **Damage Description:** (ADR:1) Slight penetration and explosive force capable of putting mid-sized holes in unprotected targets.

Weapon Mechanisms

Safety: Visible switch situated two inches from the trigger. **Fire Mode Selector:** None, Bolt Action Only. **Weapon Sight:** Iron Sights. **Attachment Hard Points:** Rails for optics in front the bolt.

Other

Field Maintenance Procedure: Wipe and clean after every mission, taking care to scrub the barrel down and all moving parts.
