

# VCE Chair

The VCE Chair is an alternate user interface for the [Virtual Collective Experience](#), it became available in [YE 34](#).

## About

The VCE chair is intended for use by persons who want to engage in long term [VCE](#) sessions, or power players.

The chair has an integrated [HALO](#). It is covered in liquid field pliable polymer cells which reacts to body heat. The chair is divided into dozens of cells and can adjust each cell to ensure the comfort of the user. A person can lay in the chair for indefinite periods without suffering from circulatory based issues. The person sits in the chair in the same way one would in a recliner.

The chair acts in the same capacity as the [VCE Console](#) except for a single individual.

## Details

Manufacturer: [Taichimora Entertainment Technologies \(TET\)](#) Nomenclature: Te-P1-E3402 Designer: [Tamahagane Corporation R&D](#) **Price:** 1,500 [KS](#)

## Options

The VCE Chair like the other interfaces monitors the users physiology looking for stressors. It can be equipped with a variety of accessories for the more dedicated users of VCE. The VCE chair even with these options will not allow a user to stay connected for more than thirty-six hours due to health concerns.

## Intravenous Feeding

The VCE Chair can be equipped with this system to allow the user's body to receive nutrients while they are in the system.

## Catheter System

The VCE Chair can be equipped with this system so that the user's bladder can be drained at regular intervals.

## OOC Notes
