History and Background

In [YE 43](#), the [Yugumo Workers Federation](#) began to target unrest within [Juugoya Cooperative's](#) agricultural collectives in the [Motoyoshi Colonial Sector](#). Under the direction of the [Motoyoshi Clan](#) it was decided to end the pro-[United Outer Colonies](#) position of [Senator Mochizuki Shiori](#); so they promoted the creation of Komorebi Foods to terminate the already acquired [Juugoya Cooperative's](#) position in the market. They focused on the fact Komorebi Foods would provide those in the industries of agriculture, horticulture, aquaculture, etc with better profits, improved market position, and above all local management as opposed to the old [Anisa System](#)-based [Juugoya Cooperative](#) structure. Refusing to do the financial destruction which had been done to her by [Koyanagi Mayumi](#), [Ketsurui-Motoyoshi Katsuko](#) ensured that [Senator Mochizuki Shiori](#) was paid the lump sum of her estimated royalty shares that were expected through [Juugoya Cooperative](#) through [YE 45](#).

With the [Yugumo Workers Federation](#) and [Motoyoshi Clan's](#) involvement in the creation of the [Tsu Agricultural Zone](#), it was easy to trigger the internal migration between the two divisions since the majority of the development in [Juugoya Cooperative](#) since [YE 41](#) had been by their investment. The creation of Komorebi Foods was essentially the shifting of assets from one hand to the other, but it was

designed to cut out the undesirable political backing of the former division.

While overseen by the [Yugumo Corporation](#), the basis of Komorebi Foods is that the board is controlled by the hard-working farmers, fishermen, and other suppliers who work cooperatively to improve the availability of their products across the [Yamatai Star Empire](#).

Headquarters

The Headquarters for Komorebi Foods was placed in the [Shima District](#) of the [Tsu Agricultural Zone](#). The Administrative Building was placed on Kaida Harbor in the downtown area of Shima, it was an eight-level building designed with a maritime theme to match the fisheries that surrounded it.
