Yūgumo (夕雲) means “Evening Clouds” in [Yamataigo](#) (邪馬台語). Keisatsu(警察) means “Police” in [Yamataigo](#) (邪馬台語).

History and Background

With the expansion of the [Yugumo Corporation](#) operations in early [YE 43](#) and the construction of [Port Jiyuu](#), it was decided that the corporation needed a dedicated security force to handle law enforcement and protection duties in their facilities. The project was led by [Motoyoshi-Ieyasu Tetsuya](#) as one of his first corporate contributions after becoming a [Shachō](#). Being a veteran of the [Star Army of Yamatai](#) and part of the [Star Army Reserve](#), Tetsuya saw this as an ideal opportunity for others who were in the [Star Army Reserve](#) to have gainful employment in their post-[Star Army of Yamatai](#) careers and had the [Yugumo Workers Federation](#) gear their Human Resources towards recruitment of reservists and retired and former [Yamatai National Police](#) personnel.

During the project planning, [Ketsurui-Motoyoshi Katsuko](#) and [Motoyoshi-Ieyasu Taro](#) stepped in with a request for an elite division to be formed to provide protection services for the [Motoyoshi Clan](#). The result would be a departure from the traditional [samurai](#) attachments, but a modern elite protection force that could provide services to the upper echelons of the [Motoyoshi Clan](#) that were not serving in the [Star Army of Yamatai](#).

Motoyoshi Keibi

The Motoyoshi Keibi are the elite security force devoted to the protection of the members of the [Motoyoshi Clan](#). They are generally selected from the best recruits that apply for positions in the Yuugumo Keisatsu. Most recruits here are active [Star Army Reserve](#), so they possess many of the [Star Army Common Skills](#) and have trained in the [Martial Arts](#), often [Sora-Mai](#) or another form.

They often forego the usual [Type 43 Yugumo Corporation Uniforms](#) in favor of similarly structured tailored¹⁾ black suits that are custom cut to allow for an increased freedom of movement in comparison to a normal business suit or a signature black mandarin-style dress with garter-style holster. The [Dataweave](#) integration allows for the same electronics integrations as the normal uniform. During times of high alert, or during field deployment they do wear [MYPAT](#) gear. They wear a  [lapel-style pin](#) with the mon of the [Motoyoshi Clan](#) on it.

The Motoyoshi Keibi standardly carry the [Yugumo E2 Energy Pistol](#) and a  [katana](#). They sometimes wear dark  [sunglasses](#) with [KAIMON](#) connected HUD enhancements. For particularly sensitive protective details, they are [more heavily armed](#), as are [threat response teams](#).

Duties:

- Clan Protection Services and Escort.
- Internal Investigations.
- Coordination with [Yamatai National Police](#) and local law enforcement.
- Coordination with [Star Army Military Police](#) for any matters involving [Star Army of Yamatai](#) personnel.
- Oversight of General Security Forces.

Their detachment office is located in [Asagumo-jo](#).

General Security Force

The General Security Force of the Yugumo Keisatsu provides security for [Yugumo Corporation](#) facilities and ships. They are trained in basic combat and are often members of the [Star Army Reserve](#) that were recruited by the [Yugumo Workers Federation](#). They perform patrols, guard key locations such as [KAIMON](#) chambers, and provide protection services for employees of the [Yugumo Corporation](#). They are capable of performing basic investigation services but report to the Motoyoshi Keibi. They often are involved in anti-pirate operations for the corporation as well, in which case they are [more heavily armed](#), with some even [equipped with power armor](#).

They wear the standard [Type 43 Yugumo Corporation Uniforms](#) with a numbered [Osmiridium](#) badge²⁾ instead of the corporate logo, and a black  [Brassard](#) on their shoulder with the [Yamataigo](#) ([邪馬台語](#)) for the name of their organization. They are armed with a [Yugumo E2 Energy Pistol](#), and additional [security and police gear](#).

Their headquarters is located in the Red Sector of [Port Jiyuu](#) with several detachment offices in [Asagumo City](#), [Tokyo](#) and other key locations in the [Motoyoshi Colonial Sector](#).

Merchant Spacy Kaihei

Keisatsu personnel assigned to shipboard duty are called the Kaihei ([Yamataigo](#): 海兵), which roughly translates into [Trade](#) as " [Marines](#)." They have [unique titles for their rank structure](#).
