What The Star Army of Yamatai Knows

Eve was one of the first Nekos created, and is considered [Yui's](#) sister only because they were created at around the same time, and possibly because they have close genetic ties. Being artificial beings, they don't have “parents” in the true sense of the word. Eve's current status is unknown, but her dark deeds are infamous among the citizenry of [Yamatai](#) and [Nepleslia](#). Most notably she had a horn on her forehead and was a Pennyearer that could create objects from her [hemosynth](#), often in the form of kusarigama/scythes.

Eve was known for having kidnapped, tortured and murdered about a 100 children of [Ayenee's](#) Capital City early in her lifetime. She left such an impact that for several decades, parents used her name to scare small children into behaving.

Naraku killed the late [Taisho Kai Ashigari](#). She is a dangerous assassin and aligned with the Daughters of Eve. There is a bounty on her head.
