HS-ML1-P754/00 Jâony Norjopa (Musculature)

The HS-ML1-P754/00 was developed for the Goa'ismâ (Scout) Stako Yanuto, it became available in 754 CY (YE 35)

The *Stako Yanuto (Exo-Skel)* musculature is composed of advanced Selectroactive polymers. These are arranged in striated muscle grouping similar to those found in Poku'vonai bodies. They are durable and can be easily repaired. Battle damage repairs can be made for example by taking bundles from an arm to restore operation of a damaged leg.
