

Poku Vit (Plant Clan)

The Poku Vit is the only sub-clan of the [Poku Saeruo Degonjo](#) that remained extant after the destruction of the [Otâgolisoy \(Birth world\)](#) and the launching of the [Norka \(The Exodus\)](#). The society aboard the [Arks](#) of the Norka, under the leadership of [Kotoz Mui](#), chose to keep the Poku Vit as a distinct sub-clan thanks to the continued sacrifice of its members for the good of the group as a whole.

The Plant Clan consists of the [Tula](#), and some members of the [Qakla](#) and [Tuoro](#).

The Plant Clan has made a number of notable achievements throughout its history of service to the greater Clan:

- Ship-based farming aboard the [Wunyaka Vonai \(Ark\)](#), which fed their thousands of passengers.
- The development of plant and live game preserves on colonies such as [Âmuar \(Dream\)](#) would not be possible without the Tula.
- [Jodau Fofipa \(Mind Cleaner\)](#) - It was the Plant Clan that discovered the drugs which would be used as part of the [Jodau Fofipa \(Mind Cleaner\)](#) technology.
