

Damira Ruo'sa (Environmental Room)

This chamber is where environmental systems are controlled. All *Poku Saeruo Degonjo* starships and installations have one or more of these.

A standard door leads into this room, the floor is a burnt orange color. A pair of *Makoa Kâbo'ka* (Work Console)s and *Buvoli Kâbo'ka* (Work Chair)s are in the center facing each other. These are typically only manned during combat or maintenance. The majority of the room is filled with *Niufofi'a Norjopa* (Atmosphere Systems) equipment. There are *Tyo'te Wuny'ta* (Fire Suppression) ports and standard *Ibâ'te* (Lighting) in the ceiling. Hull braces composed of *Mâqirây* (Bound Metal) protrude from the side *Anoi* (Walls).

The control and backup power for the *Udano Norjopa* (Gravity System) are present but the actual system generators are distributed through out the ship.

A standard tool locker is kept for maintenance purposes. Next to it is a *Ânamusme Wunyasa* (Damage Station) with spare parts for the equipment.

Typically the number of these rooms is equal to the size class of the ship.
