

Makoa Kâbo'ka (Work Console)

This is the information regarding standard consoles used by the [Poku Saeruo Degonjo](#) on their ships and stations.

The console itself is 1.8 meters wide and 1.0 meters tall by .75 meters deep. The top of the console is sloped for ergonomics.

Features

- A clan keyboard with programmable keys in the center of the console.
- Above the keyboard are two programmable touch screen displays.
- On the right side is the communications panel, which allows the user to select the channel(s) to operate on and monitor other messages.
- Each station has access to the communications system via a headset. The system is controlled through preset buttons, and computer controlled voice command.
- The last panel on the left shows the status of the systems the console connects to.
- Uses  [Optical Fiber](#) bundles for data transmission to other systems.
- Biometric access authentication to lock/unlock the station.
- [Iginâ Jodau'ta Fiqorka \(Neuron Processor Module\)](#) for control.
- [Iginâ Wumyo Fiqorka \(Neuron Storage Module\)](#) for data storage.
- [Iginâ Yoqa \(Neural Link\)](#)
- Removable panels/data port covers for task specific devices.
