

Sentulri

Sentulri is the twelfth rank in the [Astral Vanguard](#), and the last non-commissioned officer rank. This rank is notable for being payed higher than the immediate next rank, [Vayranr](#). This is because the few experienced NCOs that reach this position before retiring are often too valuable to promote away from the field. Sentulri characters receive an allowance of 4000 KD per week.

The previous rank is [Lantulri](#) and next rank is [Vayranr](#). For a full listing of the ranks, see [Astral Vanguard Ranks](#).
