

NDC Standard Issue (Starting Equipment)

All members of the [New Dusk Conclave's](#) various military forces are assigned the same basic starting kit. From there, they specialize based on the unique needs of their [Occupation](#).

Members of the military are allowed to customize their equipment to a certain extent, so long as their basic kit is present. Customizations that make it hard to tell their role or loyalty, or impede their ability to fulfill the needs of their occupation, are not acceptable.

Occupation-specific Gear

If your character's [NDC Military Occupations](#) provides additional starting equipment, the Occupation's page will specify it.

Independents

Independent characters within the NDC should select their own starting gear. Keep in mind that most characters should not be particularly wealthy, so please keeping your gear limited to something reasonable. A [G1-N2 "Geist" Advanced Interfacing Implant 2.0](#) is recommended and is available for free to any of the NDC's civilians.

Regardless of occupation, your GM should help you understand what you might need. As a general rule, we don't manage inventory or wealth, so think of these as 'RP helpers'.
