- The DloN will pledge to not expand north of the Free State, and will aid in Freespacer colonization or terraforming efforts when required. The Free State shall be free to colonize all worlds north of the NDI-controlled system of Ether.

The Star Military of Nepleslia shall pledge to protect Free State resources in the event of an unprovoked, third-party attack.

Article II: Hostile Actions

- Unless presented with clear and present danger against their respective peoples, the DloN and the Free State shall agree to undertake no hostile action against one another, directly or by proxy.

- Should they wish, Free State members will be allowed full citizenship within the DION, with all the rights entailed in the Nepleslian Constitution.

Article II: Representation

- The Free State shall be allowed one Senator within the Nepleslian Senate.
- The Freespaceer Senator will not, however, have the ability to vote on the overturn of Planetary laws.

Section 4: Commerce and Trade

 - For this service, the destination and intended use must be made clear to the exporting party.
 - Should the intended project be terminated or destroyed, the alloy must be either returned to Nepleslia by a Nepleslian-crewed vessel, or re-distributed elsewhere with the consent of the Nepleslian government.
 - Should these terms be violated, shipment of Durandium alloy to the Free State will be closed for four months.

Article II: Freespacer Contributions

- The Free State will export a total of 5% of annual GNP to Nepleslia in the form of raw materials.
- The Free State shall continue provisions of Electronic Specialist personnel for information-gathering services within Nepleslian Intelligence Agencies and abroad.
