

Mâqitua'tomin (Transparent Light Metal)

Mâqitua'tomin is a variant of the formula of *Mâqitua (Light Metal)* used to produce *Mâqitua (Light Metal)*. The change in formula however renders the final product transparent when an electrical charge is applied. It is used for view ports on *Poku Saeruo Degonjo* ships and installations.

Mâqitua'tomin has all the same protective qualities of *Mâqitua (Light Metal)*.

- Producers: *Poku Saeruo Degonjo*
- Cost: Inexpensive
- *Armor Class*: (Light) 0.6 base SP
