A cave nation in West [Yamatai \(Planet\)](#), consisting of a vast network of caverns populated by [strange inhabitants](#) adorned with horns and other 'demon' like features - the exact reason for which is not known at this time. The Elysians conquered the area in [YE 14](#) and used parts of Hell as a prison before it was invaded by [Ketsurui Yui](#) in the same year and conquered in [YE 15](#).
