

Kakushi Nekoba

Kakushi Nekoba, or as it is known in [Trade \(language\)](#), the Hidden Neko Den, is a bar that's located in [Kyoto](#) on [planet Yamatai](#), in one of the planet's commercial districts. Reopened and redecorated by [Asakura Yayoi](#).

History

The Hidden Neko Den was once a bar owned and operated by a couple that had fallen on hard times due to mismanagement, and the war which required them to serve. Unfortunately, the couple refused to back up their SP, and they died at the [Battle Of Glimmergold](#), causing the bar to be abandoned and eventually become in disrepair. Eventually, a [Nekovalkyrja](#) named [Asakura Yayoi](#) discovered the place while undergoing further training as a [Giretsu](#), and on her day off of training she spent time, getting the deed, and eventually started to make repairs.

[Yayoi](#) didn't want to leave the service but knew that running a bar will be difficult to near impossible to do both. Therefore, she contacted [Tachiko Takeda](#) or someone affiliated with her on the word that they might be able to help her. She made the deal that they'd partner up with her and help her run, and continue as she went into service and took over on shore leave.

This she thought would be beneficial to both of them as they and by extension [Yugumo Corporation](#)¹⁾ could sell the drinks their [Tokyo Brewing Company](#) makes as an extra location.

In 45.3 the Kakushi Nekoba hosted a [Girls Night](#) trivia event, in which the bar's owner and her [daughter](#) were joined by an undercover [Ketsurui Aiko](#) and [Taiyou Hoshi](#), as well as [Lynira Aucari](#), [Vera Annesdottir](#), [Kanzaki Akahana](#), [Alastair Belmont](#), and [Akasuki](#). Sadly Yuri wasn't help much to her team. Then later on 45.7, Yayoi had decided to add [Hot wings](#), to her Bar's menu, and [Poppy Pink](#), [Pidole Henitot](#), [Bidole](#), [Kawa Euikoshi](#), [Aiko](#) (again disguised as a common Neko), and a giant Elysian male had attended.

About Kakushi Nekobā

The Kakushi Nekobā is a bar in the [Yamataian Capital](#) on the planet [Planet Yamatai](#)'s downtown [Kyoto](#) a bit away from the [Chrome Catgirl](#), to not affect the sales of the other restaurant. It was once an ordinary run-down bar before the previously ranked Nito Heisho Yayoi Asakura took the deed and began making repairs before deciding to get some help. Now it's a fixed-up working bar where Yayoi hopes [Star Army Personnel](#) can go to drink and have fun, though understandable, if they preferred the [Chrome Catgirl](#).

Currently, associates of [Yugumo Corporation](#) are partnering up and helping her with the bar.

Star Army Discount

On [Yayoi](#)'s decision, there's a 20 Percent Discount on all drinks for active service Star Army Personnel. Understandably, the rules dictated that personnel can't or shouldn't drink alcoholic beverages if they were about to enter operations, thus there will be a close eye on them. Should a Star Army Personnel be found to be over the acceptable levels, they will be taken to the sleeper pods and their CO will be contacted quietly so that the Honor of the Star Army would not be tarnished.

For the most part, the music was set so that it didn't distract.

The Bar itself, and certain wall paneling were made of a  [red oak](#) wood. This followed the flooring, which was designed to look closer to  [tatami mats](#). Technology allowed for an environment that makes it so that the temperature inside would be comfortable for specific individuals and also specifically for their species.
