Owner	<a href="#">Caeyara and Eitan Ysi</a>

## History and Background

After the [Arrival of the Norians](#) in [YE 44.7](#), the [Caeyara and Eitan Ysi](#) needed a residence in [Kyoto](#). With [Tetsuya Eitan \(Airwin Caeyara\)](#) to represent the [Akina System](#) and [Tsenlan](#) on the [Senate of Yamatai](#) a home on [Yamatai](#) would be a convenience for when he appeared in person, rather than by telepresence from the [Akina System](#). Other members of the [Caeyara and Eitan Ysi](#) like [Uaeso Eitan](#) and [Naika Eitan](#) who were likely bound to join the [Star Army of Yamatai](#) also desired a place to stay when not deployed that was within reach of the new [Tsenlanese Cultural Center](#). The cost of the land was covered by early

exchanges of currency connected to the terms of [LITA](#).

The building of their new home in the [Riverside District](#) would also serve as another introduction to the [Yamatai Star Empire](#), it being the first building to be raised using [Sanctuary Technology](#) in the entire [Kikyo Sector](#). In [YE 44.8](#), [Uaeso Eitan](#) and [Naika Eitan](#) would be the first members of the [Caeyara and Eitan Ysi](#) to move into the home.<sup>2)</sup>

## Description

The Saleloria Manor is a meld of conventional construction using [Durandium Alloy](#) and [Leviathan Husk](#) as a medium for [Sanctuary Technology](#). The home appears to be conventionally constructed from the distance, showing the ability of this new technology to blend into the cityscapes. The design ethos follows the very [Tsenlanese](#) architecture with smooth curvatures but also incorporates some more features from the [Yamatai Star Empire](#) like its pagoda-style roof.

The windows are made of intricate filtered glass which removes a portion of the infrared end of the spectrum to help keep the building cooler and protect the skin of the [Norian](#) occupants. The interior is compartmentalized and has the [typical support systems](#). It also has a [Mindhive](#) with viable connections to [SYNC](#) and the civilian side of [PANTHEON](#).

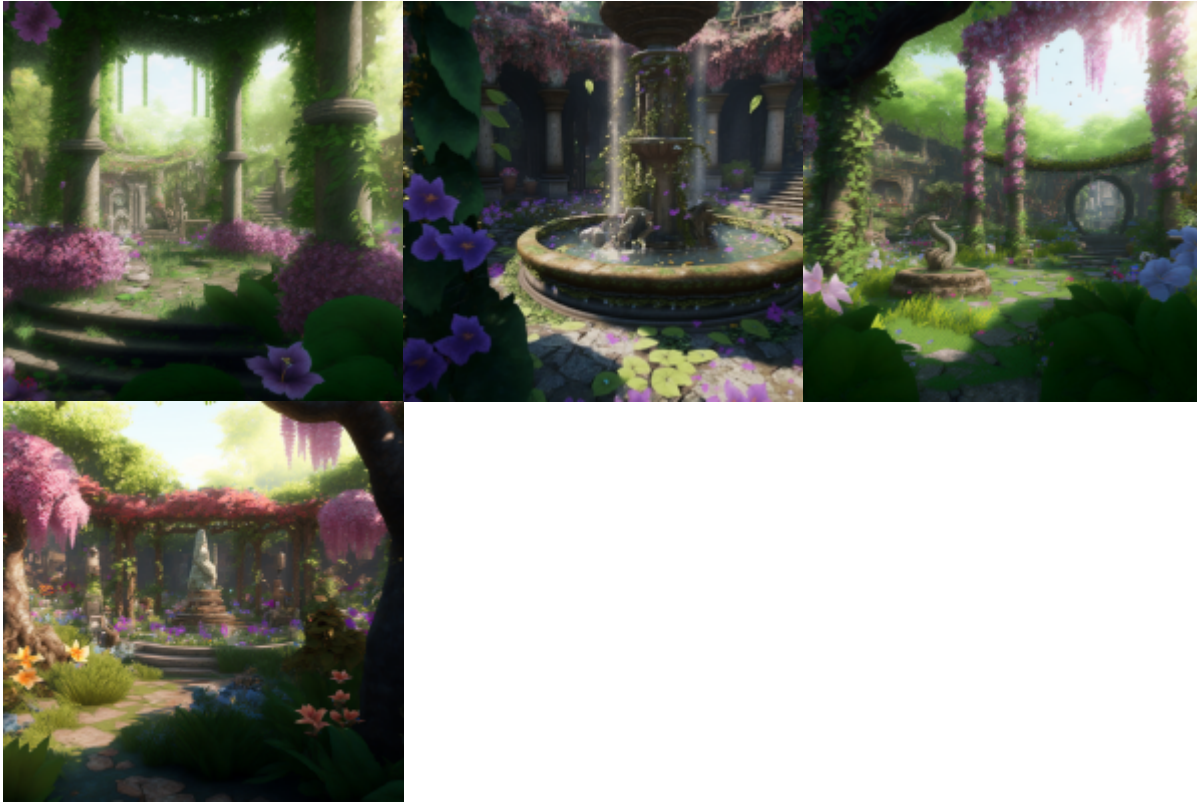

The [Leviathan Husk](#) is maintained through its photosynthetic systems as well as a small geothermal well under the structure. Safe organic and inorganic wastes are released into the local sewer systems for processing.

## Notable Features

Notable features of the Saleloria Manor.

### Gardens

The presence of the building composed of [Leviathan Husk](#) has increased the fertility and growth rate of plants surrounding the structure. With the help of artisans brought in from the [Lo'ken Institute](#) the grounds of the manor have been turned into an oasis of beauty. Crafted stone water fountains, a small courtyard of various flowering plants and shrubs, and even a bed of *Platycodon grandiflorus*, the flower of the [Yamatai Star Empire](#) has been cultivated.

Hanging tapestries of ivy and other flowering vines hang from the manor, the roots of which have joined with the [Leviathan Husk](#), growing in harmony.

## The Balcony

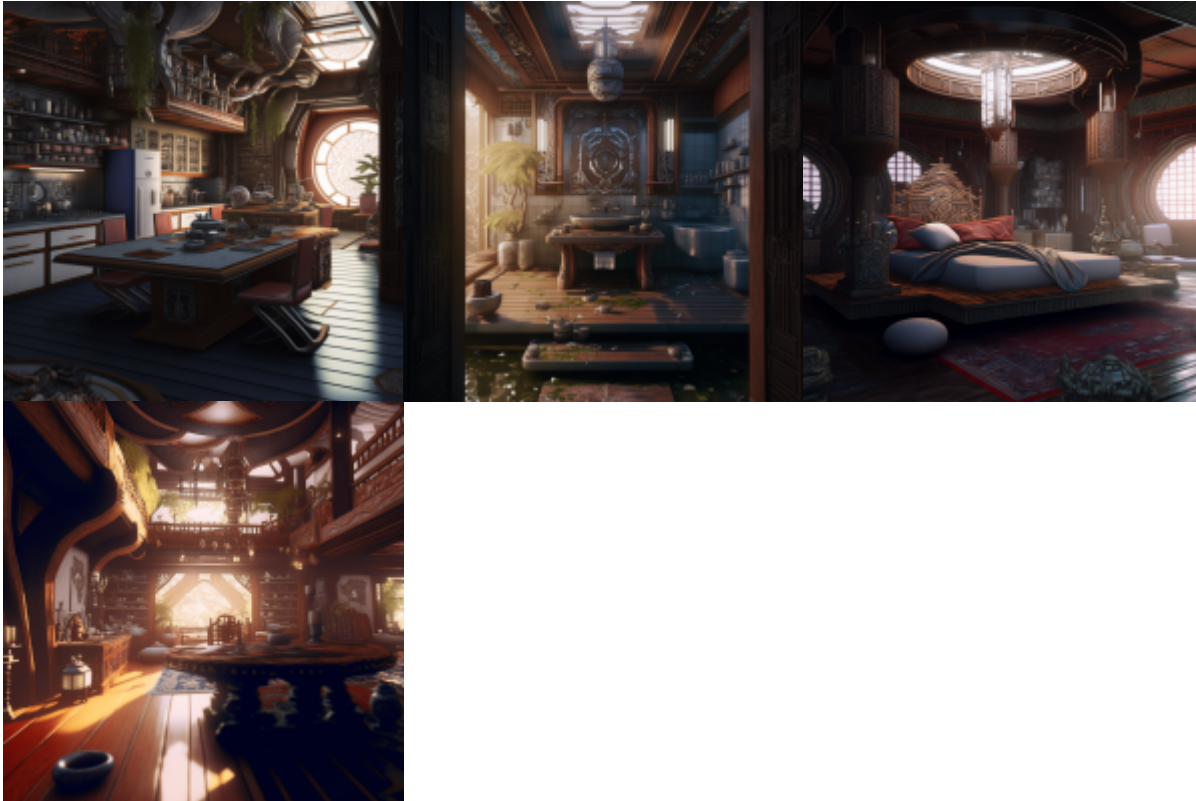

The Balcony stretches along the second floor of the manor facing the [Ketsurui River](#). The magnificent view of the flowing river, and the fresh scent of the flowering vines and ivy which hang from the manor make a wonderful atmosphere for reflection, relaxation, or even a small get-together. The balcony has several lounge chairs, tables, and a small grilling area for roasting up some vegetables for a meal or snack.

When home Sol'Voli(Crowned Prince) [Uaeso Eitan](#) can often be seen on the balcony practicing his mastery of the Neithu flute.

A cool water bath has been installed for hot summer days, which is a great way for the [Caeyara and Eitan Ysi](#) and their visitors to beat the heat.

## The Interior of the Home

The interior of the home has been framed in [maple](#) to cover the fleshy walls of the [Leviathan Husk](#). The interior boasts a mostly wood design with intricate and ornate carvings that follow natural patterns like the movement of wind or water. Crystalline lighting structures, and filtered glass windows designed in circular and triangular shapes, all provide a feeling of comfort and symbiosis with the natural world.

Stylized replicas of sofas, wardrobes, end tables, dining sets, and just about every piece of furniture have been replicated by artisans from the [Lo'ken Institute](#) to decorate the home in a [Tsenlanese](#) style with just the right amount of added [Yamataian](#) design ethos blended in.

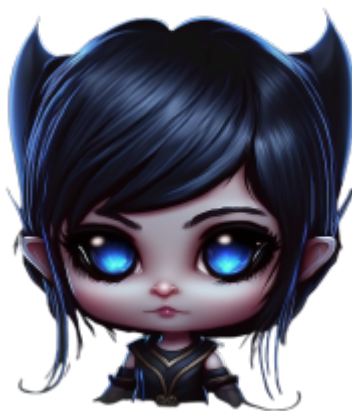

The home has four sitting rooms, a library, two offices, an indoor and outdoor kitchen, two dining rooms, nine bedrooms, and six baths. [Tetsuya Eitan \(Airwin Caeyara\)](#) has said he will expand the manor should more members of the [Caeyara and Eitan Ysi](#) wish to move in.

## Transportation

The Saleloria Manor is connected to [Kyoto](#) by road and a nearby transit stop.

## People

The home is owned by the [Caeyara and Eitan Ysi](#). The main residents are [Tetsuya Eitan \(Airwin Caeyara\)](#), Rin Caeyara, [Uaes0 Eitan](#) and [Naika Eitan](#). They have a small house staff of vetted 15 members from the [Lo'ken Institute](#).

## Characters

The [Characters](#) that are located here:<sup>3)</sup>

Nothing found

## Roleplay Opportunities

Roleplaying opportunities:

- Visit the [Caeyara and Eitan Ysi](#).
- Break in, at your own risk.
- Tour the gardens.

## Rumors

Some are true, some not. You decide:

- The living structure eats people.
- [Tetsuya Eitan \(Airwin Caeyara\)](#) keeps a secret backup of his late wife, Sinith Caeyara, here.

## Items

Some notable items in the home:
