Yugumo Science Symposium

The Yugumo Science Symposium is located in Asagumo City (The Green Sector) of Port Jiyuu. It was built in YE 43.

History

In YE 39, part of the Lorath Matriarchy took part in Project Checkout and left the Kagami Galaxy. The effects left the systems of Lor, Nyli System and Hici'emi System turned into Zesuaium. Although the Zesuaium structures could have worth as they were, it was decided that it would be better to seek the worlds returned to their natural state.

In YE 43, a communication between Ketsurui-Motoyoshi Katsuko and Xiaah Harr'Ikke "Destiny" Tur'Lista included an invitation to the Lorath Matriarchy to send a team of scientists to join the team from the Yugumo Corporation that had been talked to resolve the effects of Project Checkout. [1)] As a result the Yugumo Science Symposium was formed.

At the time the communications were exchanged, Port Jiyuu was under construction in the Jiyuu System. It was decided to place the Science Symposium there is a fully equipped complex of laboratories, lecture, and meeting facilities where scientists could collaborate on solving Project Checkout. The facilities would also include residences for visiting Lorath scientists.

The collaboration is set to begin in early-YE 43, with hopes for a quick resolution to the effects of Project Checkout. The initiative would be part of the diplomatic agenda of Ketsurui-Motoyoshi Katsuko who is seeking election as Imperial Premier of the Yamatai Star Empire.

Description

The Yugumo Science Symposium Complex is an ultra-modern Yamataian designed facility that includes modular laboratories, simulation chambers, and material science archives devoted to the study of Project Checkout. It includes adjoining buildings which include residences for both Yamataian and Lorath scientists, and meeting and conference facilities for them to collaborate. The project is funded by the Yugumo Corporation and the Motoyoshi Clan.

(Main Building, Concept Art)

Complex Layout		
Main Building		
Lower Sector	Floors 1 to 10	Lecture Halls, Conference Facilities, Tachi's, Iga Fancy Fruit Emporium Gift Shop, Main Simulation Hall
Mid-Sectors	Floors 11 to 26	Laboratories, Laboratory Storage and Logistics, MIKO Electronics Suite, Material Sciences
Upper-Sectors	Floors 27 to 40	Administration, Laboratory Control, Offices, More Conference Facilities
Residences - Adjoining Buildings 1 and 2		
Micro-Apartments, Lorath residences and support facilities		

Transportation

The Science Symposium can be reached through public transportation on Port Jiyuu.

People

The complex occupied mostly by employees of the Yugumo Corporation which includes their own scientists, also scientists from the Lorath Matriarchy and other parts of the Yamatai Star Empire.

Characters

These Characters are present in the complex:[2)]

Nothing found

RP Opportunities

Great roleplay opportunities.

- Check-in with scientists on their progress solving Project Checkout.
- Attend a conference or lecture.
- Create a scientist or technician involved in the project.

Local Rumors

Maybe true, maybe not.

- Researchers are also looking for ways to prevent any future uses of Project Checkout.
- Material Scientists are looking for ways to harvest some Zesuaium from smaller asteroid objects before the process is reversed.

OOC Notes

Andrew created this article on 2021/02/05 21:38.

DOGA Building Art by Andrew, hopefully, some better art will follow.

This was approved by Wes in this thread.
