

Asura III

A tropical, habitable, Yamatai-like planet in the [Asura system](#), "Asura" was the only remaining [United Outer Colonies](#) colony aside from [Miyamae System](#), and is the largest population center in the [Yugumo Cluster](#) region of space.

Asura is patrolled by the [Star Army of Yamatai](#). Asura is locally governed by a council of countries, special interest groups, and megacorporations that co-exist only reluctantly with each other. The result is a planet almost as diverse as it is sprawling; with 3,735,423,976 humanoid beings on the surface, and sitting as it is on the very verge of civilized space, it could hardly help that.

History

- [YE 30](#): The [United Outer Colonies](#) splits from the [Yamatai Star Empire](#), resulting in Asura's colonization.
- [YE 31](#): The [Second Mishhuvurthyar War](#) begins. The YSE and UOC are attacked by the [NMX](#).
- [YE 32](#): Asura loses communications to the rest of the UOC as it is overrun by Mishhuvurthyar forces.
- [YE 33](#): The UOC is evacuated and its territories are re-absorbed into the YSE. Asura, however, is left intact by the NMX and left alone by the YSE.
- [YE 34](#): The Second Mishhuvurthyar War ends. [Tenth Fleet](#) is administratively disbanded and reformed in the [Yugumo Cluster](#) and occupies Asura but does not go to the planet's surface.
- [YE 36](#): [VSV Boutros](#) illegally enters YSE space¹⁾ and crashes on Asura III. The incident created a renewed Yamataian interest in Asura and contributed to the [Defense Arrangement Treaty \(of the Alliance of Signatory States\)](#) signed shortly afterward.
- [YE 37](#): Yamatai announces plans to build a Star Army base on Asura III.²⁾ Construction of [Fort Asura](#) begins in the final month of YE 37. ³⁾ Asura III is also added to the [PAINT](#) network, with round trip civilian flights to [Jiyuu Fleet Depot](#).
- [YE 38](#): Fort Asura completed. Trinary Star Shipping expands to Asura III.

Government

The framework for the Asura Prime government was only loosely dictated by the [United Outer Colonies](#) , now defunct, as a democracy with the highest of ideals - the liberty of the common person, and the freedom of the soldiers of the [Fifth Expeditionary Fleet](#) who defected from the [Yamatai Star Empire](#) in [YE 30](#). A people's house of commons, with seventeen representatives from the four major planetary districts, was set up around a Prime Minister presiding over the House. They have a standing constitution which grants considerable power to the district and local governments to maintain contracts, property rights, and provide for an interdistrict justice and penal system.

In current practice it is a corporatocracy that does little to maintain any of these rights except for the ones that can pay for them.

When the United Outer Colonies fell to the [NMX](#), the government remained - but finding itself without support from the colonial fleet, which had either surrendered to Yamatai or joined the [Lorath Matriarchy](#), it turned to the corporations entrenched on its surface for funding and borrowed large amounts of money to provide for a standing militia and to maintain the economy and welfare of its populace. When the Lorath began to patrol the astral territory of the Asura system, the colonial government found a temporary reprieve for two full years, until [YE 34](#), when [Task Force Lantern](#) officially took over patrol of its astral territories.

[YE 36](#), The [VSV Boutros](#) crash⁴⁾ lands on Asura III and its crew begins to combat local defense forces⁵⁾, sparking response from Yamatai in the form of Operation [QUIET RAGE](#).

The debts came due - the government, effectively bought out, was generally agreed by the populace to be a simple puppet of the most powerful corporations on the planet's surface.

Asura III is still very much a planet of many interests, with its people as varied as the causes they champion.

As part of the [Yugumo Corporation](#)'s sustainability initiatives, the [Juugoya Cooperative](#) has recently begun construction of farming villages & aquaculture centers on land/water purchased from the various corporate entities and/or the loose central government.

Yamataian Special Control Zone

Created during the end of [YE 37](#) and given to the required Yamataian government representatives appointed by the Tenth Fleet's leadership, it represents the only land area directly controlled by Yamataian rule and law and order. Yamatai began construction of [Fort Asura](#) in [YE 37](#). It was completed in [YE 38](#).

Its current commander is Shosho [Fujiwara Miu](#) (藤原 美羽).

Mochizuki Beach

Located in the tropical zone of the planet, this picturesque coastal city untouched by war serves as the center of Asura's tourism industry. It is the first sight that any new arrival to the small [PAINT](#) network terminal on connecting flights from [Jiyuu System](#) hub will see.

It is blessed with miles of beautiful, sandy-white beaches and azure waters, along which is built one of the most famous landmarks of the area, the Mitsuya Grand Hotel & Resort. This luxurious 5-star destination features amazing sunset views in its various deluxe honeymoon suites that cover several stories, as well as fine dining and relaxing by the warm fire in the aptly named 'Embers' lounge, decorated with some of the life accomplishments of its namesake. Its a particularly popular destination for wedding couples as it features a striking circle of giant, perfectly smooth stones situated in the middle of a beautiful natural preserve & garden called the P'enn Pavilion. The pavilion is notable for being one of the only places outside former Matriarchy space to hold traditional Lorath wedding ceremonies, and is so named for the [ancient tradition](#) of gem & semi-precious stone offerings to adequately display the depths

of one's affection for another.

There is a sizeable [Lmanel](#) population present in Mochizuki Beach, as many of them are gainfully employed by the hotel and related businesses to keep its natural beauty intact and also create mementos for tourists to purchase.

Recently, [Peacekeeper Heavy Industries](#) has constructed a small satellite office complex in the downtown area, as cooperation with the central government on military projects has increased substantially. It is also convenient for CEO [Mochizuki Shiori](#), who is a longtime beach-goer herself, and may often be found mixing business with pleasure in her summer home near some choice seaside real estate.

Commerce

Civilian cargo shipping is primarily provided by [Trinary Star Shipping](#), which has storefronts in all of the planet's major cities.
